# AKAH Life-Style Backpacks

## Buffalo leather with Pull-Up-Effect

Our pull-up leather is deeply impregnated by hand with oils and waxes. Pull up leather is water-resistant due to intense greasing. Pull up leather has the advantage of aging well and looking more interesting as they distress. Pull-up leather develops a distinctive and individual leather patina which results in a "used look". **A product with character for those who admire leather!**

## Yak-Leather

Yak Leather is three times tougher than cowhide, yet as smooth as moose leather. It is tanned in Finland by our provider but bought directly from nomadic shepherds in Mongolia. **There are no middlemen to ensure those families the best prices.**

## Moose leather

**This is the real touch of high quality natural leather!** You will find here all the naturally skin-abrasions and small skin inflections on, which are not been over painted. So you can imagine the whole life history of this moose. It is shown on his skin.

**Every piece is a masterly achievement of the AKAH leather manufacture.**

### 1 Rucksack bag DOG with YAK-Leather
