

AKAH

2021 - 2022

Dear Customer

We assume that you too can no longer stand to hear the term "Corona". When we finalised our AKAH catalogue a year ago, we were convinced that we had not only the first, but THE Corona wave behind us. That normality would prevail again in 2021. But a six-month lock-down period and the renewed shutdown of shooting ranges in Germany and many other countries hit our branch - especially the retailers. Added to this were governmental requirements in Germany with regard to the marking of weapons and the introduction of the German National Firearms Register NWR II, which would already have been demanding in a "normal" year. This further shook the market.

We all had to adjust during this difficult year. Although our sales representatives were bravely on duty throughout the epidemic, they were only able to carry out their usual tours to a limited extent. We were not able to visit our esteemed customers to the normal extent. In the export business, visiting customers was not even thinkable. A large part of the communication was only by phone or e-mail. We are all glad that the good contacts have remained and that everyone is once again happy about visits and thus a piece of normality.

But some of the things we had to get used to will remain in the future. Video conferences with suppliers and staff can save time and be effective. Home office will remain more widely used. And we will no longer be so quick to look surprised when we see people wearing masks in public.

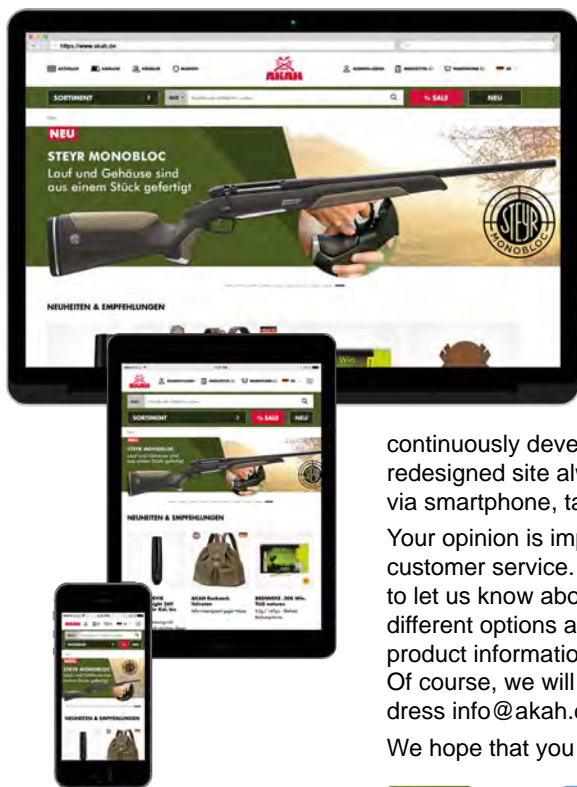

In the past year, however, we have not only had to respond to new situations, but we have also taken action and further refined our product range. So we have not only listed new products from the brands we represent. We also have with the company GPO another manufacturer of high quality hunting optics, developed and designed in Germany. So we hope you enjoy our new AKAH catalogue with its many inspirations and new products.

Hunstig, July 2021

AKAH on the internet

Mobile internet usage is increasing rapidly. At the same time, however, hardly any user wants to do without stationary access. That's why we are continuously developing our online shop. Thanks to the responsive web design, the completely redesigned site always offers an optimal user experience - regardless of whether it is accessed via smartphone, tablet or desktop.

Your opinion is important to us and for our considerations since we understand our business as customer service. Therefore, we will make it even easier for you to address us with the request to let us know about any suggestions you may have. In case you would like to do so, there are different options available for you. We would be pleased if you follow us. In addition to current product information, you will also find articles about our branch and everything that inspires us. Of course, we will continue to be available as your personal contact. Please use our e-mail address info@akah.de as usual.

We hope that you enjoy our online offer and look forward to your visit on www.akah.eu.

Scan the QR Code with your smartphone and you will directly reach us.

Data privacy:

We inform you comprehensively about data processing by Albrecht Kind GmbH based on the EU General Data Protection Regulation (GDPR). Detailed information can be found on our website www.akah.eu/other/privacy-policy/ under the menu item „Privacy Policy“.

The catalogue prices are recommended retail prices of the manufacturers, per 1.8.2021.

The indicated prices include German VAT. Price increases at run time the catalogue are unfortunately not always avoidable, in particular due to changes of exchange rates.

The technical data and features of this catalogue may be modified without prior notice. We reserve the right to make minor deviations in dimensions, weight and construction. Colour deviations possible.

REVOLUTION IN EVERY RESPECT

The revolutionary one-piece bolt action rifle provides more stability and, as a result, more precision. The innovative aluminium synthetic stock with handcrafted leather elements on the forend, cheek-piece and pistol grip offers a perfect grip and elegant design. The trigger unit can be easily removed without tools and stowed in the butt. The butt plate can also be removed in a few easy steps and can be adapted to personal requirements. A successful innovation for modern hunters of tomorrow.

RELIABILITY. An all-steel weapon for absolute toughness made according to military standards.

PRECISION. New „Monobloc“ construction – barrel and housing are made from one single piece for best accuracy.

SAFETY. State-of-the-Art safety features like hand-cocking-system, bolt lock and removable trigger unit.

ERGONOMICS. Top ergonomic stock with numerous, innovative options to adapt.

Barrel and housing unite ...

... for highest precision and reliability !

DER ANBLICK

ELEGANT PERFECTION

The STEYR MANNLICHER SM 12® with it's ergonomic and easy to operate **hand cocking system (H.C.S.™)** sets new standards for all hunting situations.

The new designed stock with Bavarian cheek-piece and elegant checkering gives this rifle a timeless elegant look.

The **O.B.P.™ (optimised barrel profile)** with new barrel lengths and optimised barrel contour features accuracy and fits perfect in the stock and system. These features, combined with its unique design, result in the ultimate rifle for the most discerning shooter.

Bolt Lock for SM 12®

A new feature for the STEYR MANNLICHER SM 12® is now available! A bolt lock, which prevents from unwanted opening of the bolt when the rifle is in safe position.

PERFECTLY SILENCED

STEYR CL II BREEZE

Perfect sound suppression with optimised blast characteristics combined with ideal weight distribution for maximum guidance – all with the accuracy only provided by the cold-hammer-forged barrels from STEYR ARMS. The STEYR BREEZE models are available as SM12 and CL II with wooden stock (3,50kg/6.7lbs) or weight-reduced

carbon stock (3,05kg/7.7lbs). The STEYR BREEZE has a 407mm stainless barrel and an integrated carbon silencer (please order separately). The CL II BREEZE come with a 2-stage trigger and has 3 position safety, trigger safety, bolt handle and firing pin lock. The hand cocking SM 12 BREEZE features a fine tuned trigger with forward set trigger.

Original Accessories for STEYR Carbon

- Picatinny rail forearm € 108,-
- Flex sight € 228,-
- Flex muzzle break € 192,-
- Flex muzzle cap € 24,-

STEYR FlexSight

A special thread allows to change from open sights to silencer or muzzle brake without the need of any tools.

Every STEYR CARBON comes with the exclusive CARBON rifle bag, a CARBON cap and a range book. Without surcharge.

ULTRALIGHT AND SOLID

The STEYR CARBON combines the excellent accuracy of a STEYR RIFLE with a extra light and robust carbon fibre stock. Designed by FBT the stock not only captivates with his light weight and the high stability, it is also a "quiet" carbon fibre stock with the same acoustic characteristics as a wooden stock.

The STEYR CARBON is available with the STEYR hand cocking system (SM12 with combi trigger) or with the 2+1 safety (CL II with combi trigger or direct trigger).

RIMFIRE RIFLE

New

threaded barrel
1/2 x 20 UNF

STEYR MANNLICHER ZEPHYR II

The small bore rifle sets totally new standards in the segment of rifles for rimfire cartridges. The official journal of NRA "AMERICAN HUNTER" confirmed this in December 2018 by announcing the STEYR MANNLICHER ZEPHYR II as Rifle of the Year 2019. Further Awards received the rifle from GRAY'S BEST and SPORTING CLASSICS.

Bolt action rimfire rifle - features: classic wooden stock with Bavarian cheek piece, checkered grips and handguard. With the typical STEYR MANNLICHER bolt handle and slide safety.

SMALLER – LIGHTER – QUIETER

The STEYR ARMS suppressors achieve best performances with the help of the so-called "Virtual Volume" - an innovative technology that takes STEYR ARMS straight from zero to the top in the segment of sound suppression.

The suppressor is available in two versions: as a thread-on silencer (STEYR BREEZER MSD) and as an overbarrel silencer (STEYR BREEZER OSD).

STEYR BREEZER MSD and OSD are suitable for caliber 6,5-7,62, 6,5x55SE, .30-06Spr., .308Win., .300WM as well as all calibers .30.

Recommended retail price.

MANNLICHER SCOUT € 2.288,-

Due to its short overall length of just 98 cm and the low weight with approximately 3 kg, the MANNLICHER SCOUT is the perfect rifle to be utilized universally.

An additional five or an optional ten-cartridge-magazine, can be accommodated in the hollow well of the ergonomically shaped

synthetic stock. This is not the only detail, which makes this lightweight rifle practical and universal. When necessary, the bipod, which is integrated in the stock's forearm, can be unfolded. Thus, the round will be precise even when no other support is available.

SCOUT Green (on request)

SCOUT Mud (on request)

Comes without scope.

STEYR SSG 08 from € 6.082,-

The ultimate precision rifle, developed by professional shooters for highest demands. The STEYR SSG 08 offers numerous useful features for the perfect shot, including trail spade, various adjustable Picatinny rails (Mil. Std. 1913) for mounting tactical equipment and a lockable Versa-Pod.

STEYR SSG M1 from € 11.152,-

The new STEYR SSG M1 marks a new step in evolution of sniper rifles. Based on traditional virtues like precision and reliability a whole range of new features enables the shooter to improve his shooting performance. With Muzzle break, KeyMod™ foreend, foldable aluminium stock, adjustable butt stock, top picatinny rail 30 MOA, heavy duty bolt and Harris bipod.

HS .50 M1 € 8.964,-

The STEYR HS .50 opens an era of long-range shooting. The cold hammer forged barrel ensures excellent precision up to a distance of 1500 m. Directly after assembly, the weapon is ready for use. Taking off the barrel complete with optics takes only a few seconds. The 'Side Loading Magazine' enables to switch the magazine without changing the position.

Comes without scope.

STEYR HS .50 € 6.684,-

The STEYR HS .50 is a long range, high precision rifle, with an effective range of up to 1,640 yards (1,500 m). It was designed as a single shot bolt action rifle, and is available in the caliber .50 BMG. The STEYR HS .50 features a cold hammer forged fluted barrel, adjustable bipod, and a highly efficient muzzle brake, which reduces recoil

substantially to increase shooting comfort. The top mounted Picatinny rail (Mil. Std. 1913 rail) allows quick and easy installation of various optics, or night vision devices.

The STEYR HS .50 is designed to field strip easily for transportation or maintenance purposes.

STEYR AUG-Z Sport € 2.798,-

The STEYR AUG Z is the civilian version of the world-famous STEYR AUG - a gas-operated semiautomatic rifle with a Picatinny rail (Mil. Std. 1913) which allows quick attachment of various optic devices. The cold hammer forged and hard chrome plated barrel with a twist rate 1 in 9" guarantees high reliability.

RUGER PRECISION RIFLE®

Ruger Precision Rifle
cal. .338 Lapua Magnum

Ruger Precision Rifle™

Ruger® Precision MSR stock with QD sling attachment points features a bottom Picatinny rail and soft rubber butt pad. The left-folding stock hinge is attached to an AR-style buffer tube and accepts any AR-style stock. Barrels can be easily replaced by a competent gunsmith using AR-style wrenches and headspace gauges.

Also included: two 10-round Magpul® PMAG® magazines. 20 MOA Picatinny rail secured with four, #8-40 screws for increased long-range elevation capabilities.

Cold hammer-forged 4140 chrome-moly steel barrel with 5R Rifling at minimum bore and groove dimensions, minimum headspace and centralized chamber. Three-lug bolt with 70° throw features dual cocking cams and a smooth-running, full diameter bolt body.

Oversized bolt handle for positive bolt manipulation, with 5/16"-24 thread for easy replacement. Bolt disassembly tool is stored in the bolt shroud for easy striker channel cleaning.

Ruger Marksman Adjustable™ trigger is externally adjustable with a pull weight range of 2.25 to 5.0 lbs; wrench is stored in the bolt shroud.

More features:

- Ruger Precision Rifle™ Hybrid Muzzle Brake
- Equipped with a Ruger Precision Rifle™ Short-Action Handguard for improved scope clearance for long-range scopes
- 15" free-float M-LOK® handguard of black anodised aluminium
- ambidextrous manual safety

HAENEL

RS 8 / RS 9

The whole is more than the sum of the parts

The RS family was developed to meet the requirements of the professional user.

Haenel has complete control of production of all key components of the RS family rifle system. The barrel, receiver and bolt action are all produced in Suhl/Germany.

The ergonomic concept is based on a tool-less adjustment of the gun with the support of

"quick" adjustments. The Stock can be adjusted not just in length, but also in height. The cheek-rest, which is also adjustable in height. The precise trigger action can be adjusted for pull resistance, trigger pull and longitudinal position and take up pull. (Adjustable trigger weight: 10 - 20 N.) The pistol grip adapter (AR 15 style) allows the user to select from a wide variety of different pistol grips.

The modular concept is based on the universally recognised interfaces for accessories; from the pistol grip adapter to the mounting rails for aiming devices and accessories (Nato STANAG 4694). A Nato STANAG 4694 rail is milled into the system housing, this permits highest precision connected with a low line of sight. A further Nato STANAG 4694 rail is integrated on the bottom of the chassis in front of the hand-guard.

RS 8 Basic

RS 8 Subsonic

Comes without scope, bipod and .ground spike.

RS 8 Compact

RS 8 Basic:

Base for a wide action radius and optimised for shooting on long distances. Optional: bipod, special case.

TECHNICAL DATA

- Length: 1.120 mm (folded stock 880 mm)
- Width: 75 mm (folded stock 90 mm)
- Height: 185 mm (without scope)
- Barrel diameter: 22 mm

RS 8 Compact:

Compact rifle with a short and heavy barrel for maximum accuracy on average shooting distances with an optimal handling.

TECHNICAL DATA

- Length: 1.030 mm (folded stock 830 mm)
- Width: 75 mm (folded stock 90 mm)
- Height: 185 mm (without scope)
- Barrel diameter: 22 mm

RS 8 Subsonic:

Twist is especially adjust for subsonic ammo (220/240 grain) and silencer.

TECHNICAL DATA

- Length: 1.196 mm (folded stock 980 mm)
- Width: 75 mm (folded stock 90 mm)
- Height: 185 mm (without scope)
- Barrel diameter: 35 mm (incl. silencer)

RS 9:

The HAENEL rifle system RS9 is the magnum variant of HAENEL RS8. The effective range is 1500 m. Optional: Tactical silencer.

TECHNICAL DATA

- Length: 1.275 mm (folded stock 1.020 mm)
- Width: 75 mm (folded stock 90 mm)
- Height: 197 mm (without scope)
- Barrel diameter: 22 mm

Comes without scope, bipod and .ground spike.

CR 308 / CR 6,5 / CR 300

Semiautomatic Rifle

New - now available also in 6,5mm Creedmoor and .300 Blackout

Bigger and stronger: The CR variant in calibre .308Win. / 7,62 x 51 mm NATO can fall back on the higher performance capacities of this universal widely used cartridge. The dimensions of the rifle are adjusted to the calibre, apart from that, it is functionally and economically equivalent to the Haenel CR 223 series. Optional: the single-stage trigger can be replaced by a pressure point trigger.

TECHNICAL DATA

- Action: indirect gas operated
- Caliber: .308 Win. / 6,5mm Creedmoor / .300 AAC Blackout
- Ambidextrous charging handle, ambidextrous bolt catch, magazine release left & right
- Flash suppressor A2 standard with QD suppressor mount
- AR-15 telescopic buttstock, 6 stages; takes standard AR-15 milspec stocks

- Hand guard with two NAR and two KeyMod rails, removable without tools
- Polymer back up sights
- Single-stage trigger 28–35 N or pressure point trigger (two-stage trigger) 17–20 N
- Fire pin safety, ambidextrous safety lever, 60°
- Magazine capacity: 10 rounds

BACK TO THE WOODS

HAENEL ▶

The new i-Sight system with removable sights and barrel thread M15x1.

Bolt Action Rifle JAEGER .10

A classic, slim shape – made in Germany

This "state of the art" bolt action rifle, is defined by its cylinder lock, being a utility rifle "par excellence" amongst its class, the JAEGER 10 focuses particularly on uncompromising safety and functionality.

The development team at HAENEL have created a rifle that provides the hunter a reliable companion for the hunting grounds: Robust, intuitive and yet with a straightforward aesthetic. The 2020 vintage of this rifle is enhanced with fine walnut – Back to the Woods. As well as the i-Sight system, which provides flexible sight options.

Typical JAEGER 10: Ready for any situation, with or without suppressor or open iron-sights; the threaded barrel is standard. A rifle for forest, field or open hill made with a passion in Suhl, Germany.

Functional and practical:

- Highly stable 6-lug bolt head runs smoothly in the cold forged receiver.
- The legendary cold-forged Suhl barrels – with variable i-Sight system, threaded barrel and muzzle cap.
- Single stage trigger with set trigger facility (except Varmint/ Compact versions).
- A 3+1 shot magazine can be easily inserted. Another option in .308 Win. is the 10+1 Magazine.
- The two-position safety acts on the trigger rod. The rifle can also be opened when the safety is engaged.
- With a Remington 700 mount preparation – anything can be fitted to it. From Picatinny mounting rail/ rings to the universal Dentler system.

Fast bolt action: an opening angle of 60 degrees is sufficient.

Safety with separate chamber lock - for unloading while in safe condition.

JAEGER 10 Timber Compact

threaded barrel
M15x1
with
i-Sight system

The short-barrelled offering especially with the suppressor in mind. Wooden stock (grade 4) with pistol grip and cheek piece, straight comb and rubber cap. Picatinny rail. 19 mm Semi Weight

barrel with barrel thread M15x1. Cold-forged system with extremely durable coating. Removable i-Sight system.

17969. ... from **€ 1.798,-**

JAEGER 10 Timber Lady Compact

threaded barrel
M15x1
with
i-Sight system

Short barrel suppressor option: The Timber Compact has quickly won the heart of the lady hunters who prefer less recoil and noise from the muzzle.

19 mm Semi Weight barrel with barrel thread M15x1. Picatinny rail. Removable i-Sight system.

17975. ... from **€ 1.798,-**

JAEGER 10 Timber Lady

The shorter Lady stock perfectly fits the anatomy of the woman with the pistol grip being steeper (which makes the trigger closer for short fingers) and the comb of the stock higher and finally a butt plate that is designed for maximum recoil reduction. The wooden buttstock (wood grade 4) has a straight stock line and a Monte Carlo cheek piece, which allows the upright firing position typically adopted by women. Removable i-Sight system.

Stalon®

Quality products from Lapland Sweden

Using a silencer eliminates the muzzle blast that occurs in front of the barrel, which reduces noise significantly.

STALON is one of Europe's largest manufacturer of suppressors for hunting rifles, located in Swedish Lapland. STALON silencers are made of aluminium. They can be disassembled and most of them are reflex type, i.e. they mostly sit back over the barrel to reduce the weight at the front. STALON silencers are primarily intended for hunting weapons.

STALON Suppressor of the X-Series

Test 4/2021
Price-performance ratio winner "Hunt from a raised hide".

The X-series consists of four different models with varying length, weight and sound reduction adapted for all types of hunting. Common to all models is that the fronts (Front 108 / Front 149) are interchangeable, which means that the front can easily be replaced or supplemented to another model and / or caliber.

XE108, together with the X108, are the two shortest models from the X-series, the more effective XE149 is recommended if maximum sound reduction is needed for magnum/ large calibers.

For the smaller and / or standard calibers, X108 or X149 is strongly recommended.

STALON front and rear modules see www.akah.de

AKAH Neoprene Covers für Stalon

The 3 mm Neoprene cover for the Stalon silencers safeguards your suppressor against scratches and impacts that occur with normal use.

Furthermore, the 1100 Cordura insert mitigates the mirage caused by the heat coming off the suppressor in the target range. The neoprene cover also reduces noise when the repeating rifle gets in contact with other objects.

STALON Suppressor VICTOR / VICTOR L

VICTOR is smaller and lighter but with great performance. **VICTOR** is primarily for smaller calibers from .22 – 6,5mm but even for .308 Win. In comparison with the W-series **VICTOR** is lighter, and thinner with a diameter of 41mm. The suppressor is made crafted in a single piece and has no interchangeable front-module. **VICTOR** is the natural successor of the Compact-series and will be released in two versions **VICTOR** and the extended version **VICTOR-L**.

Made from high quality hard anodized aluminium, thread-inserts and most exposed inner parts are reinforced and made of stainless steel. Available in a wide range of threads.

STALON Suppressor for Rimfire Rifles

Stalon RM

Stalon RM is the small and compact silencer for rimfire calibers. The unique design makes it very easy to dismantle and clean. It is made of anodized aluminium with steel thread insert that provides a very sustainable and durable silencer. Also available for air rifle „F“-versions up to 7,5 Joule.

Stalon RC (Rimfire Core)

Stalon RC silencer developed for small game hunting and shooting, from caliber .17 to .22.

The unique single core construction inside of Stalon RC is designed to reduce weight and noises to a remarkable level but also to simplify the process of cleaning and maintenance.

FREYR & DEVIK

freyr & devik

Sound suppressor technology

DESIGN:

The silencers are in the classic streamlined Freyr & Devik design. The tapered shape is also optimised for strength. It also allows the silencer to glide more smoothly through denser vegetation. The raised exit hole also reduces water entry when hunting in rain. Water entering a fouled suppressor may lead to crystal formation. All Freyr & Devik silencers can be opened easily without the use of tools. This simplifies maintenance, cleaning and drying after hunting in the rain.

MATERIALS:

These silencers utilize Grade 5 Titanium on thread and core of the high-pressure chamber. Here, the temperature can exceed the melting point of aluminium. Titan's superior characteristics in terms of weight, strength and temperature resistance is therefore essential to create a light, robust silencer with longevity. Freyr & Devik is using high-strength aerospace aluminium on the parts that are less exposed to heat, such as encapsulation and anterior lamellas. This is a material with a superior relation between strength and weight, which enables a very light but strong construction.

Featherweight 269 Titanium

Featherweight 269 Titanium is the silencer for those who need maximum suppression. Even though it has a very high rate of suppression it only weighs remarkable 269 grams. Its light weight makes for excellent handleability and retains the natural balance of the rifle.

Test 4/2021
Price-performance
ratio winner "Stalking
& Mountains". Design
award for most attractive model.

Featherweight 196 Titanium

Featherweight Titanium 196 is a truly revolutionary product when it comes to weight and efficiency. Weighing in at only 196 grams it offers the same level of suppression as far heavier and bigger suppressors. More accurately the Featherweight Titanium weighs only 6 grams per dB sound reduction. This translates to a lot of sound suppression in a light and small suppressor. This low weight and size preserves the natural balance of the rifle.

Featherweight 149 Titanium

Featherweight 149 is the silencer for those who are looking for lightest hunting suppressor possible. Weighing in at only 149 grams it still offers a serious level of suppression in a small and remarkably light package. At this weight it has hardly any effect on the natural balance of the rifle. This makes it ideal for driven hunts, stalking and when handling dogs. This suppressor is ideal for smaller calibers.

AKAH Neoprene Covers

The 3 mm Neoprene cover safeguards your suppressor against scratches and impacts that occur with normal use.

Furthermore, the 1100 Cordura insert mitigates the mirage caused by the heat coming off the suppressor in the target range. The neoprene cover also reduces noise when the repeating rifle gets in contact with other objects.

Maral Composite Brown HC Adjustable

MARAL SF

The most effective straight-pull action rifle:
safer, more ergonomic, faster.

With all its undeniable experience in making hunting rifles, BROWNING® has innovated yet again in the field of straight-pull action rifles with the new MARAL. A real technical revolution, its quick-loading system offers shooters incomparable speed and unprecedented firing comfort.

BROWNING® combines this new technology with all the experience it possesses in barrel-making and its expertise in safety with its 7-lug bolt, which already equips over a million rifles throughout the world. Efficiency can also be measured when you look at the breech, which is always contained inside the bolt-casing. This enables shooters to keep their target in their sights continuously when firing.

• New trigger system

When you want absolute precision the new trigger system is crisper, shorter and incredibly direct. The trigger system offers you a clear and direct start leading to exceptional experiences.

- **Hand Cocking.** Safety guaranteed.
- **Breech contained inside its casing:** no inconvenience when reloading.
- **Easy, ergonomic handling**
- **Rapid stock dismantling system**
- **Removable magazine** (Nordic & Brown)
- **7-tenon bolt - safety guaranteed**
A bolt renowned for its sturdiness, which guarantees exceptional safety and accuracy.
- **Quick Reloading System**
The servo bolt return system combines maximum safety, speed and efficiency. Thanks to the time gained in the reloading phase, shooters can concentrate on their firing action.

MARAL Composite Nordic HC Adjustable

The Maral SF composite Nordic HC gives prominence to black for its gunstock and fore-end, giving a new look to this rifle which has quickly taken the lion's share of its category. Close to its cousin in brown composite, it is equipped with a threaded barrel (M14x1) and a Nomad Hybrid mounting rail for the telescopic sight. Capacity: 10+1 (.30-06Spr.), 9+1 (.308Win.), 3+1 (9,3x62)

17749.6.. € 2.099,-

MARAL Compo Nordic Reflex Adjustable Thr.

The exponential sales of the Maral prove that once you give it a go, you can't say no. This version of the Maral is the Nordic Reflex composite. Nordic refers to the black colour scheme with grey grips, while the term Reflex indicates that it is fitted with a K1 red dot sight from Kite Optics mounted as low as possible to the barrel. Positioning the sight up to 6 mm lower than it would be on the receiver adds that little extra boost to the Maral's natural speed, ergonomics and versatility.

16741.1.. with Kite K1 € 2.675,-

MARAL Composite Brown HC Adj.

Here, buttstock, grip and fore-end are brown in contrast to the black of the barrel and the receiver, giving it discretion and distinction. This fine straight-line action rifle with a threaded barrel (M14x1) and an adjustable cheek-piece also has a muzzle brake (T1), which can significantly reduce recoil and the extent of muzzle rise in case of successive shots. The Maral SF Composite Brown HC is designed to receive a telescopic sight with its Nomad Hybrid base rails.

Magazine capacity: 10+1 (.30-06Spr.), 9+1 (.308Win.), 3+1 (.300WM)

17749.1.. € 2.329,-

17749.3.. left-hand version
€ 2.329,-

MARAL SF Fluted HC Threaded

Its main assets are its seven-lug bolt, its breech which is always contained inside the bolt and its patented Quick Reloading System. Ideal for both driven hunt and stalking, it is equipped with a fluted barrel, a battue-type rib and fibre optics, a drop-down magazine and a quickly removable stock. This model comes with a threaded barrel for fitting a silencer or muzzle brake.

16725 ... € 1.349,-

X-Bolt SF

Missing is no longer an option!

INFLEX II
TECHNOLOGY

SUPER
FEATHER
TRIGGER

The stand-out innovative feature of the X-Bolt SF is the Super Feather Trigger system that gives this rifle a firing quality that feels unbeatable. It also has a new lock-release button that lets the user open the bolt and unload with the safety on.

The new design imparts better balance and highly functional operation in a more compact rifle, while the floating barrel provides the vital finishing touch needed for flawless accuracy.

• Super Feather Trigger:

- zero take-up
- minimum overtravel
- minimum creep
- Clean, short, crisp and direct.

• Bolt-unlocking button.

• Inflex anti-recoil butt plate

This extra-soft pad offers the best recoil absorption possible on a rifle. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the butt stock slightly away from your face in order to reduce the recoil and upward motion of the gun.

• Rotating magazine.

• Utmost accuracy

A free-floating barrel is essential for utmost accuracy. The X-Bolt SF's free-floating barrel is perfect due to double bedding i.e. positioning of the barrel / breech block assembly at two points with respect to the forearm, at the front and at the rear.

The new X-BOLT SF are now equipped with a Super Feather Trigger with its perfect action: clean, short, crisp and direct.

BAR MK3 Eclipse Fluted

BAR

The most reliable semi-automatic in the world

Browning is the undisputed leading specialist of semi-automatic rifles, with 50 years of experience in the field. It owes its title to the quality of its firing mechanisms, the gentle gas-operated action that results in minimum recoil feel, its reliability, but also, and most importantly, to the fact that it has always moved ahead to bring you ever-higher performance.

- **New trigger system - for crisper, shorter and incredibly direct**

When you want absolute precision the new trigger system is crisper, shorter and incredibly direct. The trigger system offers you a clear and direct start leading to exceptional experiences.

- **Interchangeable butt-plate:**

The Bar and Bar Zenith are fitted with interchangeable anti-recoil butt plates Inflex II of different thicknesses are available: 1.2cm, 2.0cm and 2.5cm. These butt plates enable you to adjust the length of your stock without any difficulty.

- **Hand Cocking System - safety guaranteed**

The manual cocking system lets you literally cock your rifle, by moving the arming plunger forwards, which puts the hammer springs under load. Your gun is now ready to fire. You can disarm your gun just as easily by pushing the button.

- **Removable magazine**

BAR MK3 Hunter Gold

The contrast between the black receiver and the gilt flash of the logo will appeal to your finer taste. Add in the grade 2 oil-rubbed wood and you have a rifle you will be proud to take to your post.

MAXUS 2

The reference among gas operated shotguns
- softest shooting semi-automatic ever!

• Speed Load Plus - the value added extra you only get from Browning.

Every second counts when you're hunting small game. Speedloading is a Browning proprietary technology that saves you precious time. When you insert the first cartridge into the magazine with the breech open, it is chambered straight away and the bolt springs shut.

• Power driven gas system.

The Power Drive Gas System uses larger escape valves to remove gas more quickly with heavy loads. A brand new patented design for an integrated valve keeps residue out side the mechanism for cleaner functioning. The piston has a run increased in length by 20% to make it even more reliable with light charges. The system works with loads of 24g to 64g.

• Magazine cut-off

The magazine cut-off for unloads and replaces the chambered shell with a new load without having to cycle the new shell from the magazine.

• Fully balanced gun.

The perfect balance of the Maxus II will give you an even more natural swing!

• Fully adjustable stock.

The drop and cast of the Maxus II can be altered using the six spacers included in the box, as well as the 7 mm stock insert and 32 mm Inflex II recoil pad.

• Full comfort stock.

The Inflex II is one of the best performing recoil pads on the market, directing the force of the recoil downwards and away from the shooter's cheek. The stock also features a Reactar gel cheek piece for even better face protection, especially when firing high-gram cartridges.

• Ergonomy.

Overmoulded forearm and pistol grips keep the gun securely in your hand even when it's raining. The oversized bolt handle and trigger guard make the Maxus II easy to handle, even with gloves on.

• Versatile.

The Maxus II delivers outstanding performance in any setting. This shotgun comes with 5 Invector+ chokes for your every need. The Maxus II is also capable of firing a wide selection of hunting cartridges, from 28 grams to the largest loads available in gun stores.

A5 One

A5 Grand Passage MAX5

A5

Built to last: 100.000-round warranty!

The A5 has been designed to offer unmatched reliability, speed and low-recoil feel in a semi-automatic inertia shotgun.

• INFLEX II

The Inflex II Technology recoil pad is the next generation of the most recoil absorbing pad available. A softer new outer material provides even better recoil absorbing performance and is super slippery to prevent snagging on clothing when shouldering. This second generation has added a new absorbent material that slips perfectly on clothing.

• Humpback

Made from lightweight, aeronautic quality aluminium alloy, the A5's receiver is sturdy and its characteristic shape is much more than just a nostalgic return to the past. The receiver's familiar humpback shape fits perfectly with the rib for lengthening your line of sight and in this way helps you to aim naturally with faster targeting.

• Reloading system

The patented Speed Load Plus loading system sends the first shell in the magazine directly into the chamber. In addition, thanks to the rapid unloading system, unloading operations are both simple and fast, without

needing to operate the bolt for sending each shell into the chamber.

• Kinematic Drive System

The system accumulates recoil energy and converts it into a mechanical movement for actuating moving parts. The beauty of the Kinematic Drive™ system resides in its simplicity of design, which enables it to operate in a regular, reliable way, with any type of load, and under all extreme conditions of weather, temperature, moisture or fouling.

• Vector Pro™ barrel

The principle of the Back-bored™ Vector Pro™ barrel is to improve the diameter of the bore of the barrel and to extend the forcing cone which provides three advantages:

- increased speed, improved pellet penetration
- improved pellet grouping
- reduced recoil.

• Chokes

The Invector DS™ Cal 16 chokes provide unrivalled performance by providing an optimal length of 72 mm, an exclusive internal shape and a patented gas seal segment.

A5 One

The A5 One is the starter version of the A5 family, with an understated receiver that is enhanced by the walnut stock and fore-end. It features all the technical specifications behind the success of the A5.

B725 Hunter Grade 5

All B725 shotguns are available as left handed versions without surcharge on request.

B725

Innovative over-and-under shotgun with legendary reliability!

The Browning B725 is an aesthetic and technical revolution in over-and-under shotguns. Based on the legendary B25, it is innovative whilst retaining the many existing design features of the B525, which make it the most outstanding over-and-under shotgun on the market.

• INFLEX II recoil pad

A Inflex II recoil pad is fitted on all B725 shotguns as standard. This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. This exclusive material makes shouldering easier. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock. In this way, you can adapt your B725 to your own physique and also adapt it depending on the hunting season.

• New high-performance mechanical trigger system

This new firing system is shorter, faster and lighter giving more control over your shooting. Browning's innovative mechanical firing system provides great ease of use for hunters and shooters, guaranteeing that a second shot can be fired whatever the circumstance.

• Low action frame

The low action frame provides the following benefits when shooting. It enables faster aiming and therefore more instinctive shooting. Thanks to the frame's inline recoil providing a more comfortable shooting position, it reduces muzzle flip and makes for good manoeuvrability and effectiveness when shooting. 10 years guarantee action frame.

• Back-bored Vector Pro™ barrel

The principle of the Back-bored™ Vector Pro™ barrel is to improve the diameter of the bore of the barrel and to extend the forcing cone which provides three advantages:

- increased speed, improved pellet penetration
- improved pellet grouping
- reduced recoil.

• Invector DS™-Chokes

The new Invector DS™ chokes provide unrivalled performance by providing an optimal length of 80 mm, an exclusive internal shape and a patented gas seal segment.

B725 Game 12M

The action frame of the B725 Game is made of steel and features a number of highly attractive wheel-engraved scenes. The nitride finish affords a grey look that is especially pleasing on the eye. The B725 Game includes grade 3 Turkish walnut and is fitted with a new stock that further enhances the ergonomic characteristics of a B725 that has nothing more to prove. Comes with 5 DS chokes.

B 525 SPORTER

B525

Hand fitted to create the best there is.

During the making of a B525, the gun moves from one gunsmith to the next to be entirely hand finished, thanks to the expertise acquired over many years by each of the gunsmiths. This is the only shotgun on the market at this price level that is hand fitted during production to such a high performance level, making each shotgun truly unique.

Fitting important parts (barrel, action frame, forend) is done by hand using traditional methods (using red ochre) so as to make the Browning B525 the reference in shotguns. The attention paid to detail when manufacturing and fitting every Browning B525 is unique, just like the "Browning feeling" when the gun locks on closing before shooting.

• Flawless mechanics for outstanding reliability

- Action frame made from indestructible forged steel.
- Extra-wide flat bolt and hinge pin.
- Impact wheel ejectors for cleaner ejection.
- Chrome-plated barrels and chambers.

• Inflex II recoil pad

• Back-Bored barrel

The Back-bored™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

• Invector Plus chokes

B525 New Sporter One 12M

Besides its Back-Bored Vector Pro barrels, its 10mm battue rib and the oil-rubbed finish of its grade 2 walnut elements, the B525 Sporter 1 possesses 4 Invector + chokes and the Auto Safety system. Just as efficient for sporting clays as for hunting, the B525 Sporter 1 does not lose in aesthetics everything it has gained in reliability: the magnificent autumn scene engraving that adorns its metal surfaces just goes to prove it.

INFLEX TECHNOLOGY II

BACK-BORED

B725 Pro Trap Adjustable 12M

This sports shooting rifle includes all the special features that made the B725 Pro Trap a success: the Back Bored Vector Pro barrels, 12 mm top rib, Hi-Viz sights, and a wide selection of 8 Invector DS Extended chokes. Browning has pushed performance potential to the extreme by adding two striking innovative developments to this famous model's original qualities, and further enhancing the balance of this over-and-under shotgun that was designed to be an extension of the shooter's body: a fully adjustable cheek piece; and a stock and barrel assembly with the Pro Stock and Barrel Balancers technologies respectively. The result is a B725 Pro Trap that is fully adjustable!

12358.012 76 cm

12359.012 81 cm **€ 4.460,-**

B725 Pro

Shooter and gun as one!

The B725 Pro range has been designed to provide a perfect gun fit whether you're shooting sporting or compak.

• PRO BALANCE System

The Pro Balance System allows shooters to fine-tune the balance point for a perfect mount and swing. Adding weights (optional) to the stock helps balance the shotgun, aids follow-up shots and the additional mass reduces felt recoil.

• Interchangeable recoil pad

The B725 Pro range is supplied with interchangeable 15, 20 or 25 mm recoil pads. They will enable you to adjust the length of your stock without the slightest difficulty.

• TRIPLE TRIGGER System:

The Triple Trigger System fine tunes finger-to-trigger reach on target models. Includes three trigger shoes: Wide checkered, narrow smooth and wide smooth canted.

• Invector DS™-Chokes

The new Invector DS™ chokes provide unrivalled performance by providing an optimal length of 80 mm, an exclusive internal shape and a patented gas seal segment.

Select Light

This light alloy shotgun with an action frame reinforced with steel trunnions and insert, shows the technical characteristics of steel Select® models. Its animal engraving is very lifelike. The low action frame of this shotgun along with its low weight give it incredible life and astonishingly quick shouldering.

12251.012 71 cm

€ 1.680,-

Select Sporting II

The Sporting Select® is distinguished mainly by its traditional engraving that evokes mixed usage for both shooting and hunting. Its Back-bored barrel is equipped with 5 Invector-Plus chokes and proofed for steel pellets.

12265.012 71 cm / 12266.012 76 cm

€ 1.650,-

Select Energy Sporting Adjustable

The Select® Energy Sporting Signature, with its easily adjustable comb, has many unique features including a set of 5 Signature Briley chokes and an adjustable trigger to adjust the length of the pull. A choice of 71cm and 76cm barrels, with 10mm rib and a competition TRUGLO® TRU-BEAD® foresight complement this shotgun.

12270.012 71 cm / 12271.012 76 cm

€ 2.080,-

Select Trap Adjustable

This new version of the Select® Trap relies on perfect harmony between man and gun. The Select® Trap Adjustable's major asset is its stock – judiciously fitted with an adjustable cheek-piece, which enables pitches and advantages to be adjusted in just a few seconds. 3 interchangeable chokes.

SX4

WINCHESTER

SX4 Field 12M

New SX4 Stealth 12M

SX4 Composite 12M

SX4 - Lighter, faster, ergonomic!

The new Super X⁴ is the autoloading shotgun designed for speed. Its features:

- INFLEX recoil pad
- Stock lengths can be adjusted with inserts
- Better ergonomics
- Ambidextrous safety
- Wider bolt handle and release button
- Active Valve System
- Back-bored barrel

SX4 Stealth 12M

Tired of camo patterns, wooden stocks and black composite guns? The supreme style of the SX4 Stealth will catch your eye and capture your heart. The hunting green colour scheme is injection-dyed into the mass to retain your SX4's original looks through the years. It is chambered in 12/76 to handle a wide selection of cartridges, right up to the heaviest. And the 30mm Inflex pad absorbs recoil like a champ so you don't have to.

13215.012 66 cm

AKAH Rifle Rest

Protection of registered design
GM 202005003219.0

The models on the market couldn't convince us. That's why we developed our own rifle rest and applied it for patent protection. This distinguishes us from our competitors:

- Made of soft moose leather
→ fixes the rifle very well.
- The moose leather is impregnated
→ does not absorb water.
- Bottom side is padded with non-slip rubber
→ absolutely skid resistant.
- Lateral extensions are weighted with lead strips
→ for additional skid resistance.
- The rubber facing is removable which enables the hunter to change the filling.

67593 € 69,-

It guarantees quality AKAH leather, genuine workmanship of trained craftsmen, quality hooks made in Germany.

Luxurious AKAH Gun Cases - famous all over the world since more than 166 years

They show the know-how of the AKAH-saddlers. Before AKAH starts manufacturing such an exquisite case, a detailed discussion with the customer must precede.

- The AKAH-carpenter makes the wooden case.
- Each case fits exactly to one single gun and the accessories.
- High quality brass fittings and combination locks.

- Optics are protected by soft felt or velvet lining.
- Handmade grips by our saddlers. This will last at least some generations.
- The leather cover is individually chosen by the customer.

A second look will confirm all details are masterly done - each case is unique.

GUN PLUGS

Protect the barrel from rain and dirt.

The gun plugs were developed in cooperation with experienced trackers. They protect firearms from rain, dirt and other contaminants that can not be harmless. The Gun-Plug is simply propelled out of the barrel by the shot air pressure between bullet and plugs. For cleaning purposes, remove easily the Gun-plug with finger-nails. It is variable usable from caliber 7 mm to 9.3 mm. 10 pieces, consisting of five yellow and five red plugs.

Rimfire Rifles

CZ 457

The CZ 457 family is distinguished by its highly sophisticated modular design:

- **More accurate**
- **More safety** by lateral safety with firing pin indicator
- **Extremely durable anti-corrosion finish** on metal parts
- **Quicker reloading** because of a 60° bolt lift instead of 90°
- **Lighter striker** for increased speed and reduced vibration during firing

threaded barrel
1/2" x 20 UNF

CZ 457 Royal

The long stock for the CZ 457 Royal is made of premium walnut, with a decorative tip. The beautiful grain is accentuated by an oil finish. 20" barrel with 1/2" x 20 UNF muzzle thread, removable magazine, adjustable trigger, cheek piece, without sights.

21250 Cal. .22lr € 849,-
21251 Cal. .17HMR € 849,-

NOT JUST A GUN! CO₂

REAL EXPERIENCE.

COLT Government 1911 A1

CO₂ powered pistol, 8 - shot loading clip, rifled barrel, adjustable sight. Double-action. Nylon grips.

Barrel: 5"; **Overall length** 220 mm, **Weight** 1,080g. V₀ = 120 m/s; **Cal.** 4.5 mm (.177) BB

blue 23370.000 € 199,90

COLT Special Combat Classic

Heavy all-metal version of the Colt classic. The slide, in a stainless steel look, rests on a frame with a Weaver rail. The removable magazine holds both the BBs and the 12 g CO₂ cylinder. Double-action, safety catch.

COLT M45 CQB

Licensed replica of the latest M1911 Close Quarter Battle Pistol for the US Marines. Heavy all-metal construction with realistic blowback effect. Commander Hammer, Memory Beaver Tail and ambidextrous safety. Frame with Picatinny rail according to Mil-Spec 1913. Single Action.

COLT Defender

Compact, handy, especially easy to use: When the magazine catch is pressed the single-part grip plate pops out, revealing the 12 g CO₂ capsule and built-in stick magazine.

Double-Action Only.

Finish: full metal.

COLT Single Action Army .45

World-famous Colt Peacemaker®. Full metal, authentic loading with metal cartridges.

COLT Python

Authentic replica of the famous .357 Magnum revolver: 10-shot BB magazine and pellet magazine included. Rear sight adjustable for windage and elevation. Synthetic grips, blue. Double Action and Single Action.

RUGER 10/22

The .22lr Ruger 10/22 has been a top seller: well-balanced, robust and precision-built. The .177-caliber CO₂ version (2 x 12 g) not only has the looks of the famous original, it resembles it with features like the 10-round rotary magazine and excellent handling characteristics.

WALTHER CO₂

WALTHER CP99

Fast-action system for quick loading, plus technical features found in the original pistol like a decocking lever, ambidextrous magazine release and interchangeable backstrap.

WALTHER NightHawk

with NightHawk mount and compensator.

magazine CO₂ for CP99 23366
€ 44,95

WALTHER CP88 COMPETITION

The interchangeable barrel system permits easy conversion and provides extra precision and performance in both double action and single action mode. The 8-shot cylinder can be quickly changed by opening the gun with the slide stop lever.

WALTHER CP88

CO₂-powered pistols for fun and action shooting. All-metal design, 8-shot loading clip, rifled barrel, adjustable rear sight, single and double-action, nylon grips. V₁ = 120 m/s

KK500

KK500 Blacktec with black BLACKTEC stock

A genuine match rifle at the price of an entry-level gun. Due to the many individual adjustment possibilities and the option to use the system and the stock as right- and left-handed shooter, there are no unfulfilled wishes. With its light weight, the KK500 BLACKTEC is equally suitable for all age groups.

KK500 Anatomic with ANATOMIC laminated stock

Thanks to its special technical features, unequalled shooting precision, new trigger and new ergonomic stock, the rifle is designed primarily for shooters competing at the national and international level. The use of high-grade materials and precise workmanship down to the smallest detail ensure you will have a competition rifle of the highest quality for many years to come.

Choice of mechanical or electronic trigger. Incl. Centra sight riser, INSIGHT-OUT rear sight, Centra front sight tunnel and gun case.

KK500 Expert with EXPERT aluminium stock

Developed in collaboration with Henri Junghänel. Individual adjustments to the KK500 aluminium stock. The continuously adjustable fore-end, the three different grip sizes each with two different grip geometries, the slimline ALL-IN-ONE cheek piece with interchangeable rounded or edged contact surface, the butt stock offsettable using a parallelogram joint, and the newly designed and sturdy EXPERT hook butt plate – all of these ensure a perfect firing position for consistent accuracy.

Choice of mechanical or electronic trigger. Incl. Centra sight riser, INSIGHT-OUT rear sight, Centra front sight tunnel and gun case.

KK500 Ultra Light with S grip laminated wood „Red Devil“

The KK500 „Ultra Light“ is certainly a real eye-catcher. For shooters who prefer a short and light rifle. Incl. SPY Centra dioptr. WING chest rest in accordance with new rules.

LG400 monotec / Expert / Competition

The new monotec stock combines the versatile adjustment possibilities of the KK500 stock with a unique suspension. The action is not mounted in the usual fashion on the receiver but instead right on the barrel. The advantage is that vibrations from firing are prevented from being transmitted to the barrel, where they can adversely affect shooting performance.

LP500

BETTER. TARGETING WALTHER LP500

UNCOMPROMISING. ENGINEERED.

The development of the LP500 had exactly one goal: to hit the target better. The best air pistol does not simply shoot more intuitively, more ergonomically, more precisely. It is the basis for the perfect symbiosis of weapon and shooter.

- **Interchangeable trigger**, electronic or mechanical, easy to switch
- **MASTER trigger blade**, adjustable in four ways
- **CARBON cylinder** made of aluminium-carbon composite
- **SADDLE breech design** for convenient loading
- **5D grip** with variable volume
- **INLINE weights**, internal and sliding
- **8-duct compensator cone**
- **Rear sight and front sight** pivotable
- **Ball bearing match trigger**

GSP Expert

Sporting pistols with proven technology.

The world's most popular sporting pistol. Reliable performance thanks to improved barrel geometry and a vibration-absorbing plastic sleeve. Sights are positioned closer to the wrist, which reduces aiming errors. The grip is optimally adapted to the shooter's hand. Nitro-carbonized breech reduces friction of breech movement even in rapid firing.

Quick caliber change .22 l.r. / .32 S&W "Two calibers, one gun". The GSP Expert trigger can be adjusted as needed from 1,000 to 1,360 g. Moveable barrel weights compensate for recoil. The GSP is renowned for its reliability with many kinds of ammunition.

.22LR

1911 A1 .22 l.r.

The pistols of the 1911 .22lr platform licensed and tested by COLT are authentic COLT Government models.

An outstanding feature is the slide – it is CNC machined from high-quality aluminium, thus less loaded ammunition can be utilized without issue.

Features of all Colt 1911:

CNC machined high-grade aluminium slide. 1911-style field stripping. • Rubber grip. SA trigger. Authentic half-cock mechanism. Accepts aftermarket accessories. Serrations at the rear end of the slide. Original style safety lever. Straight MS housing. Extended magazine release.

Additional features of the A1:

Low mount combat-style sights with 3-dot system (rail only). Grip safety.

P22Q .22 l.r.

The "small" defensive pistol.

Interchangeable backstraps ensure an optimum hand position. Modern polymer frame - compact design and low weight. Single and double action. All functional elements are ambidextrous. Loading status indicator, magazine safety, hammer safety and drop safety for maximum accident protection. Adjustable rear sight and interchangeable 3-dot front sights. Barrel can be easily switched between standard and target version.

PPQ M2 .22 l.r.

Ideal for low-cost training.

Polymer frame with anodized aluminium slide. Easy-grip grooves at the front and rear of the slide. Picatinny rail in front of the trigger (MIL-STD 1913). Integrated loading indicator. Elongated slide stop lever on both sides. Magazine release button at the side of the frame, switchable from left to right. Two independent safeties: automatic striker safety and mechanical drop safety, integrated in the trigger blade

1911 GOLD CUP .22 l.r.

Additional features:

Skeleton trigger. Extended Beavertail grip safety. Target rear and front sight. Open work hammer.

1911 RAIL GUN .22 l.r.

Additional features:

Skeleton trigger. Extended Beavertail grip safety. Open work hammer. Low mount combat-style sights with 3-dot system (rail only). MIL standard rail.

PPQ M2 Tactical 4,6" .22 l.r.

Special version with 4.6" silencer barrel and 1/2" x 28 TPI thread.

PPK

A true legend:

The PPK features a single-action/double-action trigger that decocks when rotating the safety down into the safe position, first introduced by Walther. To this day, the PPK is still one of the most sought after concealed carry pistols on the market.

PPK/S

Powerful service pistol:

An evolution of the classic PPK, the PPK/S maintains the timeless features, essence and the elegance of the original with an additional extended grip allowing for added capacity and improved ergonomics.

DEFENSE

PK380

Low profile three dot polymer combat sights. Weaver accessory rail. Tenifer™ coated slide and barrel - resists corrosion. Take down lever. Double/single action trigger. Loaded chamber viewport. Paddle-style ambidextrous magazine release lever. Rear slide serrations. Manual safety: Blocks firing pin for safe handling. Ergonomic WALTHER grip with comfortable shape. Small size ideal for small hands. 8-round magazine.

PDP

Performance Duty Pistol:

The advantages of the powerful service pistol PDP at a glance:

- **Performance Duty Trigger**
The PDT trigger breaks at the pressure point at 25 N. Short reset: allows consistent top performance.
- **Ergonomics and intuitive targeting**
Top pointability - excellent aiming performance. SuperTerrain Serrations, raised grip grooves. Performance Duty Texture: outstanding grip in all conditions.
- **Optics Ready**
All models are optics ready.
- **100% Modularity**
Picatinny rail, interchangeable magazine holder, two grip lengths, three barrel lengths.
- **Reliability**
Stepped cartridge chamber for significantly better lidded action: less fouling, longer cleaning intervals. Gets performance out of the ammunition.

Includes 2x magazines, 3x backstraps and a high-quality pistol case with PDP design.

New

PPQ Classic

Original WALTHER quality, perfect ergonomics and Quick Defense trigger system:

The WALTHER PPQ meets all the demands placed on a modern police pistol.

Newly developed QUICK DEFENSE trigger system. The PPQ Classic sports a truly ambidextrous magazine release. HI-GRIP™ surface finish in the grip area. Ambidextrous functional elements. Interchangeable backstraps in three sizes. Steel sights with phosphorescent markings (3-dot). Picatinny rail. Cal. 9 mm, 15-round magazine (optional 17-round magazine)

PPS M2 Police Set

Handy compact pistol:

The frame and slide have the current Q line. Magazine release button at the left of the frame. The M2 trigger blade and the embedded trigger safety now have a more comfortable shape, which especially facilitates rapid firing. A 3-dot steel sight with phosphorescent markings comes as standard. With three different magazines: for 6, 7 and 8 rounds.

good target groups.

PPQ Q4 Steel Frame

High-class performance.

The Duty Optimized Beavertail provides the shooter increased grip height on the pistol. Optimised for duty retention holsters, providing clearance for retention hoods most used in Law Enforcement. This beavertail design also enhances comfortability during concealed carry. The Q4 Steel Frame is precision machined to create a superb balance in hand. The weight distribution of the steel frame drastically reduces recoil to improve shooter performance, ultimately contributing to overall efficiency. The Q4 Steel Frame features Performance Duty Texture, developed by Walther to provide a premium, yet functional grip.

Two variants are available. The duty version with PS sights and an Optic Ready model with all black serrated target sights. The scope of delivery includes a magazine loader, two 15-round magazines and the attractive Q5 case.

PPQ Q4 TAC

Design and features are equal to Q4 but is equipped with 4.6" (117 mm) threaded barrel 1/2"x28 for silencer.

PPQ Q4

The Q4 shares the best in class PPQ Quick Defense trigger, which provides a smooth 25 N trigger pull and a short 2.5 mm reset. The optics ready slide comes with LPA fiber optic front sight and a rear LPA competition iron sight. The Q4 shares the same mounting plate system (not included) as the Q5 Match. Comes with one 15-round, and two 17-round magazines.

PPQ Q4 TAC Combo

The Combo version is based on the PPQ M2 Q4 TAC with threaded barrel but is equipped with a SHIELD RMSc red dot sight. The sight sits directly on the slide without an adapter plate, giving it an extremely low profile. The Tungsten Gray frame enhances the overall appearance. The standard steel sight can also serve as a backup.

Other equipment: 3-dot steel sight; one 15-round magazine, two 17-round magazines. Q5 Match pistol case.

WALTHER Conversion Kit

PPQ Q4 Conversion Kit black, polymer sights
23657.018 4", 9mm x 19 € 469,-

PPQ Q5 Conversion Kit black, polymer sights
23657.019 5", 9mm x 19 € 619,-

PPQ M2 4" / 5"

The release button can be changed over to the right side, the slide stop lever is already ambidextrous. Low profile 3-dot steel sights. MIL-STD-1913 Picatinny rail. Tenifer™ coated slide and barrel. Serrated trigger guard. Quick defense trigger. Ambidextrous magazine release button. Ergonomic WALTHER grip. Ambidextrous slide stop. Front and rear slide serrations. Interchangeable backstrap.

PPQ

PPQ Q5 Match Steel Frame

Build around our award winning Q-platform, the Q5 Match Steel Frame with a solid milled steel frame features an LPA red fiber optic sight, LPA adjustable rear sight and an optics ready slide that comes with an optics ready mounting plate in addition to the LPA competition sights. All Walther blue quick defense trigger, and trigger bar with blue AFC coating. It comes with three 15-round magazines.

PPQ Q5 Match SF Black Ribbon

Same design as the Q5 Match Steel Frame Champion, but completely in black and with aluminium grip panels. Further features: Optimised sear engagement. Dynamic Performance Trigger. Three 18-round magazines.

PPQ Q5 Match SF Expert

The Q5 Match Steel Frame Expert draws its extra edge from its enhanced trigger. Optimally adjusted sear engagement, 20 N pull, adjustable take-up and trigger stop. Aluminium trigger shoe in size M-Flat, another trigger shoe in M-Curved and three 17-round magazines are included.

PPQ Q5 Match SF Black Diamond

Same design as the Q5 Match Steel Frame Champion, but in black and with aluminium grip panels. Further features: Optimised sear engagement. Dynamic Performance Trigger. Two 17-round magazines.

PPQ Q5 Match SF Champion

Same design as the Q5 Match Steel Frame, but with adjustable sear engagement for "crisp" trigger break. Walther low-profile mag well. Three 17-round magazines with aluminium mag extension.

PPQ Q5 Match SF Black Tie

Same design as the Q5 Match Steel Frame Champion, but with satin finish and aluminium grip panels. Further features: Optimised sear engagement. Dynamic Performance Trigger. Two 17-round magazines.

New

A new sport pistol series optimised for competing in the IPSC Standard Division.

- Single-action (SA) only trigger mechanism with short travel and quick reset
- Increased accuracy and service life due to the use of high quality materials and utilization of the latest technologies
- Improved frame and slide geometry for easier, faster and more reliable operation
- Attractive design of the slide, frame and sport hammer
- Improved ergonomics that contribute to comfortable handling during firing
- Aggressive checkering optimised for a reliable grip in a wide range of conditions
- 1 mm red fibre optic front sight for quick and intuitive aiming
- Durable finish
- Long service life and high reliability with various types of ammunition
- Machined magwell and flat, anodized duralumin base
- A wide range of components and accessories available for extensive user customisation

Very good trigger characteristics.

Baer 1911 S.R.P. "Swift Response Pistol"

An uncompromising single stack performer based on the original Baer S.R.P.® but built on Baer's 1911 steel NM frame. Features include:

Baer steel NM slide with front and rear serrations. Slide fitted to frame. Baer 5" match barrel with Baer tactical sights. Baer stainless bushing. Baer dovetail ramp type front sight. Lowered and flared ejection port. Baer checkered slide stop. Baer extended ejector. Baer tactical style ambi safety. Baer match trigger. Baer checkered flat mainspring housing. Fitted and tuned extractor. Baer beavertail safety with pad. Baer deluxe Commander hammer and sear. Baer De Luxe grips. 8-round magazine. Tuned for total reliability.

24329.145 5", .45Auto € 4.400,-

1911 „HEMI 572"

Another pistol with which Les Baer expresses his passion for automobile racing. The classic lines and incomparable performance of the Chrysler Hemi Cuda, a muscle car of the 70s, is reflected in the pistol of the same name.

Baer 5" match barrel, match bushing, Baer slide with front and rear serrations, Baer 1911 frame. Complete hard chrome finish, black Dupont S coating on slide stop, ambi safety, mag catch, hammer, trigger and various small parts. Adjustable match sight and fibre optic front sight with green insert, black VZ recon grips. Comes with two 8 round magazines.

24319.245 5" .45Auto € 3.600,-

1911 „BOSS"

A fitting tribute to the high performance 1970s muscle car that inspired it, Les Baer has introduced the 1911 BOSS-pistol based on the popular Premier II, but named after Ford Boss 429 Mustang cars. Chrome complete lower, blued slide, "Tactical" package. 8-round magazine.

24320.145 5" .45Auto € 3.000,-

MAGLULA UpLULA

Magazinladehilfen

The UpLULA™ is a military-grade, pocket-size, universal pistol magazine loader and unloader designed to load and unload virtually all* 9mm Luger up to .45ACP single and double stack magazines of all manufacturers. It also loads most .380ACP single and double-stack mags, and 1911's mags.

The UpLULA™ loader self-adjusts to the magazine and loads it easily, painlessly, and reliably - without painful thumbs! During loading, the bottom of the magazine is best supported at the hip or on a table.

RETAY X PRO Black / Titan

An distinctive design, optimal handling and the high-quality workmanship make the X PRO a real professional among alarm guns. The 14-shot magazine gives the X PRO in caliber 9 mm P.A.K. the necessary power and also serves as a grip extension, which guarantees a perfect grip thanks to X Touch technology. The beavertail guides the hand directly into the ideal position. After unlocking the hammer block safety, the X PRO strikes off directly per Single / Double Action, even without manually cocking. Available in black or with slide and barrel jacket in matt titanium grey, the X PRO cuts an excellent figure technically and visually.

Features:

- Unmistakable design
- Exposed barrel jacket
- Magazine with grip extension
- Polymer frame with X Touch technology
- Single / Double Action
- Hammer block safety

RETAY X TREME Black / Nickel

Powerful, well balanced and durable - the X TREME is a good combination for an alarm gun. The heavy slide is ideally complemented by the light but strongly structured grip. This way the X TREME lies secure and firmly in the hand, even with fast shooting sequences. The magazine shoe serves as an extension of the polymer grip and holds 14 shots in caliber 9 mm P.A.K. The external hammer is quickly decocked with the thumb, after which the trigger controls with single / double action the shot release. X TREME good looking, both in black and in the nickel version.

Features:

- X Treme well tuned
- Magazine with grip extension
- Polymer frame with X Touch technology
- Single / Double Action
- Hammer block safety

RÖHM manufactures a versatile product range of gas and blank guns with great care and decades of experience. The reliable and robust models are equipped with safety systems to protect the user. RG weapons have already been characterized several times in leading professional journals as being of high quality and reliable.

For this reason, RG blank guns have become a fixed part of classical New Year's Eve shooting. At sporting events, the weapons demonstrate their qualities as start pistols. Self-defense especially plays an important role in the purchase of a blank gun. RÖHM blank guns are the ideal alternative for many people who feel threatened in a wide variety of life situations, but who don't want to carry a firearm.

RÖHM RG 3

SHOULDER HOLSTER SYSTEM

German patent number 9707093

- Mod. "Cordura" and "Quick Draw" provide excellent concealment and lightweight comfort.
- Vertical and horizontal carrying options enable a variety of applications. Both sides can be equipped with devices for cellphones, batons, cuffs etc.
- The gun is protected by a steel cover and additionally secured by an adjustable security strap.
- Outside and offside fastenings are elastic with Velcro straps.
- Our selling teams offer advice with alternatives.

COMBINATION Shoulder Holster for digital radio

- Holster with additional security due to a webbing with snap button.
- Shoulder holster with modified drawing angle.
- Shoulder holster available in three different sizes.
- Size adjustment due to a plastic quick slide instead of Velcro.
- Belt fixation with special suspender clips and flexible straps.
- At the digital radio: Cable channel for wiring, microphone etc.

65848.001 Size 1 115-175 cm
65848.002 Size 2 175-190 cm
65848.003 Size 3 190-205 cm
from **€ 139,50**

CORDURA

Lightweight soft-holster, spider web harness with leather ammo carrier. The spider web harness is fully adjustable in height. Ambidextrous design can be used by both right and left handed shooters.
for **Pistol 65842** from **€ 86,90**

CORDURA

QUICK DRAW

Made of finest sleek or velour leather. The holster is open at the bottom and has a detachable security strap.
Adjustable harness for Pistol
65905 from **€ 139,50**

ATTENTION:

Based on this Combination Shoulder Holster, new concepts were developed, in which already produced belt holsters, magazine pouches or cuff cases can be integrated in addition to the plain shoulder holster. DGM registered.

BALLISTIC SHIELDS

for police and security forces

BALLISTIC SHIELD

for police, security & armed forces:
long, transparent

German utility patent

Police-shield, patented, according to police standards October 2010 / revision February 2010 (Deutsche Hochschule der Polizei). The developed protective shield made of polycarbonate is characterized by a particularly high energy consumption (shock absorption) and also offers very good protection against pointed objects due to its shape.

Material thickness: 3 mm or 4 mm.

Effective protection area: 950 x 550 mm / 22" x 362".

Suitable for right- and left-handed users due to cross handle. Different colour available on request.

29760

Price on request.

Round POLICE-SHIELD Model "Swiss"

Anti-riot shield for police forces. It can also be used to a certain extent to stop and push off disturbers.

Diameter: 710 mm +/- 10 mm

Material of the shield: polycarbonate

Material thickness: 4 mm polycarbonate,

Weight: 2,6 kg

29762

Price on request.

INFECTION PROTECTION PANES

Due to the current situation, the certified manufacturer of ballistic shields KELLCO produces infection protection panes as spitting and cough protection against the corona virus for you in the shortest possible time. These infection protection panes are an effective barrier against pathogens that are transmitted by droplet infection. Protect your employees against the SARS-COV-2 virus.

There are different versions of corona protection panes available.

Standard material thickness: 5 mm

The corona protection pane "table model" can be installed loosely and has an additional lateral shielding.

The panes are:

- transparent
- made of high-performance plastic
- good resistance to disinfectants (unlike conventional PLEXIGLAS® sheets)

Table model without pass-through

29771.001 HxW 90 x 50 cm € 125,-

29771.002 HxW 90 x 75 cm € 150,-

29773.001 HxW 75 x 95 cm € 139,-

29771.002 HxW 65 x 75 cm € 125,-

Detachable model with pass-through (30x20 cm)

29773.003 HxW 75 x 95 cm € 139,-

29771.004 HxW 65 x 75 cm € 125,-

Universal CORDURA DROP LEG HOLSTER

The universal drop leg holster is made of CORDURA and can be used for a variety of pistols (with or without laser light module LLMS) due to its adjustability of width and height.

The pistol can be secured in the holster by a hasp and an additional elastic band. Underneath the adjustable belt loop is a plastic buckle, enabling an easy removing of the holster quiver. The height of the holster is adjustable.

Enabling secure fastening there are two adjustable thigh straps which can be opened easily due to a plastic buckle and a part made of elastic band, providing optimal wear comfort.

Two Point Sling for HK MP5

With revolving snap hooks. Individually adjustable padding. Quickly adjustable in length with elaborate two way system. Two expanders above snap hooks. Shoulder support can be inserted in front.

65913.000 € 75,-

Variable SECURITY HOLSTER with TWO-STAGE-SAFETY patented

The security holster, built in a laminated construction way, is characterized by the following advantages:

- Holstering the gun can be done as usual
- Self-locking inside security to secure the weapon against loss or theft. Additional security on top.
- The weapon can be pulled from the holster in a usual fluid motion.
- Preformed
- Optional carrying options.

Price on request.

Foldable loop in 4 different length available

- Hinged bar can be screwed on the holster, providing an optimal wearing position.
- Available in four different lengths.
- Especially suitable for driving or sedentary activities.

Price on request.

TACTICAL EQUIPMENT

with multi adjustable MOLLE system
(Modular Lightweight Load-carrying Equipment)
MADE IN GERMANY

SERVICE BAG

This bag is made of **original Cordura** with a crossbody carrying strap and back pack carrying option. **Floor reinforcement** with a ground pad and 3 ground rails. The large **inside pocket** can be locked and separated through a divider. **Hook and Loop fasteners** on top and on side to fix nameplates or badges etc. One side pocket can be folded up by a zip. One sidewall provides small pockets to store equipment and the other wall is stitched with **MOLLE system**.

69297.200 LxWxH: 75 x 35 x 35 cm (29,5" x 13,8" x 13,8") € 429,-

CORDURA

OPERATION VEST

Important manufacturer's notice:

This vest is made of tear proof and breathable grid fibre providing an optimal **wearing comfort** and guaranteeing **heat dissipation**.

It can be opened at the front with Velcro tape and two KS locks. **Size adjustment** is possible with two specially designed slides and KS lock left and right. Two shoulder pieces allow **adjustment of height**. A modular **MOLLE system** is stitched on front and back for a multitude of possibilities. Double layered mesh enables easy water transportation. This vest is also equipped with a **rescue loop** on the outer dorsal side, immediately recognizable and attainable by an orange signal dot.

69292.120 € 199,-

Different colours available on request.
Flame-retarding and IR Remission possible. Please contact us for more information.

SELF-DEFENSE POLICE - SECURITY

Electrical Stun Gun with safety plug

Power 200 and Power Max

POWER Max - electrical stun gun 500,000 V is intended for professional use for security companies, for the police, but also for anyone who wants to effectively defend himself. Unlike the stun gun POWER 200, which is powered by only one 9V alkaline battery, the power supply for model POWER Max is made up of two batteries and therefore has a high power output. One of the most important advantages of the stun gun POWER Max is a hand strap with safety plug. This hand strap hangs off the wrist and makes the stun gun out of inoperative the moment the device is violently pulled out of hand. You are defended by a safety fuse against unintentional discharge.

Technical Data:

	Power 200	Power Max
	200.000 Volt	500.000 Volt

LIGHT COMBAT BOOT

Protective Upper- High Degree of Comfort

These boots carry heavy loads through every type of terrain: They don't mind scree, sand, hard ground, high temperatures or even wet conditions. The high degree of torsional stability in the cushioned sole with a high-grip tread provide great toughness in both the upper and sole. The very light construction provides intelligent air circulation at high temperatures.

MEINDL
 Shoes For Actives

MEINDL Socks Magic
 Tough yet comfortable, suitable for every-day use but copes with trekking and sports. Reinforced heel and cushioned sole with ventilation channels.
 60% polyester, 30% cotton, 8% polyamide, 2% elastane.
 Size: 1 (36-39), 2 (40-43), 3 (44-47)
85511 € 18,90

Composition: 58% modacrylic, 24% viscose, 16% cotton, 2% anti-static
Temperature: -15°C - 10°C
Weight: 240 g/m²

Washing instruction: machine wash 60°C

Use:
 TERMO SAFE ORIGINAL is a flame-resistant grade, suitable for use when activity levels vary between high and low. Perfect Comfort with flame-resistance. SAFE ORIGINAL meets the requirements of EN 531 A, B1 and C1, EN 1149-3, EN 471, EN 1611, EN 61482-1-2..

Colours:

Composition: 49% modacrylic, 29% viscose FR, 15% cotton, 5% polyamide, 2% anti-static.
Temperature: 0°C - 35°C
Weight: 150 g/m²

Washing instruction: machine wash 60°C

Use:
 Termo Safe Light are the perfect undergarments for those requiring flame-resistance when working in extremely hot environments. Termo Safe Light keeps you both cool and warm, depending on the physical activity level. Perfect Comfort with flame-resistance. Safe Light meets the requirements of EN 14116-3/5.

Colours:

Composition: 70% polypropylene, 24% wool, 6% polyamide.
Temperature: -40°C - 5°C
Weight: 120 g/m², 270 g/m²
Washing instruction: machine wash 60°C

Use:
 TERMO ORIGINAL is best suited for those who spend long periods outdoors, where physical activity is interspersed with inactivity at temperatures between -40° and -5°. The unique channel terry cloth material quickly wicks moisture away from the body and the longitudinal channels allow air to circulate to keep you warm. Special permanent odour control to keep you fresh and warm.

each, 30x21cm.
39060 € 11,30

PAINTED TARGETS

PAINTED TARGETS

1 from solid beech wood

The targets are hand-turned from solid beech wood, then sanded and lacquered. The beech wood has an even light colour, only selected solid wood is used.

The wooden shooting targets have a thickness of approx. 2.5 cm and are therefore also very well suited for shooting directly on to the target. Due to the lowered picture bed on the 30, 40 and 50 cm targets, the shooting targets with art prints appear to be hand-painted. On the back each target has a brass-coloured hanger.

Stock N°	Diameter outer	inner	Available motifs	Price

MATCH

Top ammunition for air rifle and pistol competitions. High precision is essential while manufacturing these products. Match diabolos undergo a thorough quality control. Thanks to this you can rely on the quality of JSB

pellets. JSB Match diabolos are used and recommended by world class shooters as Rajmond Debevec, Petra Zublasing and Peter Sidi.

A wide range of pellets in different weights and head sizes allows you to choose the best combination for your weapon.

Midas+

The new generation Midas cartridge. Lapua's Midas+ rimfire ammunition is the improved generation of the successful Midas. It brought a lot of excellent results, which have been used as the basis for the new generation cartridges. Always accurate, this is the .22 caliber ammunition of choice for many world class rimfire shooters.

Center-X

Versatility and superb performance. The high-quality Center-X ammo is widely used for both match and practice shooting. The versatile .22 lr cartridge is known for its superb performance in all kinds of smallbore competitions.

Polar Biathlon

Ideal target performance in all conditions. Lapua Polar Biathlon has won the vast majority of biathlon medals worldwide. This cartridge is specifically designed for use in the frigid conditions common to most biathlon competitions. It offers ideal performance under all conditions, with consistent accuracy and reliable ignition.

Pistol King

Loaded for success. Developed to be an extremely accurate competition cartridge. This pistol round is consistent, provides excellent accuracy and gives smooth, reliable and dependable functioning.

Pistol OSP

Worldwide pistol ammo favourite. A specialized ammo for OSP (Olympic Sport Pistol) shooting disciplines. Constant, accurate and precise. It is a favourite among rapid fire pistol shooters worldwide.

Biathlon Xtreme

The best friend of the Biathletes.

The Lapua Biathlon Xtreme cartridge uses a newly developed, temperature insensitive powder that functions in all biathlon conditions. The bullet's special shape ensures reliable and easy functioning and together with the new powder it provides unbeatable accuracy and consistent velocities. Field tested for function and accuracy by two of the world's top biathlon teams.

1 Patented flat nose profile proving improved projectile stability.

2 Beeswax based lubricant for easy chambering.

3 Cut case mouth providing controlled length and optimum projectile seating.

4 ELEY prime composition for consistent ignition.

The most consistently accurate .22 cartridge on the market. Olympic standard, medal winning, premium quality cartridges used by experienced club shooters and internationals.

Impressive results from a competition cartridge featuring many of the attributes of Tenex. Top choice among the largest body of competitive shooters, representing amazing value for money and providing excellent accuracy.

Patented flat nose cartridge which has won more Olympic medals than any other cartridge. Superb accuracy which supersedes nearest competitor. Reduced cartridge diameter for easy chambering in -1 C° to -20 C° conditions. Specially formulated lubricant for optimization at low temperature.

The highest quality cartridge for semi automatic rifles and pistols. Features a round nose bullet profile and a specially developed lubricant to prevent misfeeds.

Match Slow Pistol has been designed to appeal to shooters looking for high quality at a competitive price. Specification of Match Slow Pistol complies with regulations of ISSF for Rapid Fire shooting discipline.

Softer round with reliable functioning and high accuracy in all popular pistols.

The ELEY German Match was specially designed for the German shooting sports.

A very affordable, good quality general purpose cartridge. A good value entry level round.

Accurate and reliable mid-range cartridge - a popular choice for the club shooter and has been a consistent winner in competitions.

The Standard allows shooters of all ages and levels to experience and trust ELEY's unrivalled accuracy at an affordable price. With the re-introduction of Standard, ELEY added a paraffin-wax lube to the round-nose bullet for consistent and reliable functioning through all rimfire firearms, including semi-automatic.

Super accurate and one of the quietest subsonic rounds on the market. Subsonic Hollow is a lower velocity hunting cartridge with target shooting accuracy.

Super accurate and one of the quietest subsonic rounds on the market. Subsonic Hollow is a lower velocity hunting cartridge with target shooting accuracy.

A high-velocity, semi-automatic .22LR round designed for power that delivers both strong kickback and accuracy.

A subsonic semi-automatic .22LR round designed to deliver extreme accuracy and improved knock-down performance.

World record holder Snježana Pejčić visits ELEY's test range in Fellbach.

Benefits of batch testing with ELEY

Test TENEX and GERMAN MATCH with your own rifle under the guidance of our experienced Customer Range Officer.

- All batches are available to all shooters, whatever their level of competence.
- Batches having variable velocities / extreme spreads from all six loading machines.
- Easy to use software allowing customers to run their own testing.
- Each and every shot monitored including any control ammunition.
- A system that allows regular cleaning and the warming of barrels during testing.
- Evaluation of firearm for performance / consistency against known parameters.
- Measurement of head space and case indentation for the highlighting of any wear.
- Copy of groups with patented 40 shot overlay, to make batch selection clear and precise.

ELEY COMPETITION AIR PELLETS

ELEY ventus

competition air pellets are manufactured with highest precision and quality. ELEY's market-leading technology and testing processes ensure production tolerances are consistent throughout batches.

ELEY ventus is the pellet choice of many of the world's elite, whether in competition or training you can depend on its world-class accuracy and performance.

Available in 4,49mm, 4,50mm and 4,51mm diameters to ensure a match with all air rifles and air pistols.

ELEY tenex air

premium air pellets: world-class accuracy, protective packaging and precise weight control set new standards for .177 calibre air pellets. They are manufactured in the UK using the strictest manufacturing and analytical processes to provide world-class accuracy. Available to batch test at ELEY test ranges for the ultimate performance.

Available in 4,49mm, 4,50mm and 4,51mm diameters to ensure a match with all air rifles and air pistols.

Stock N°	Caliber	Type	Diameter mm	Packing Tin	Packing Carton	Price/Box EURO
48650	.177	Ventus	4.49 / 4.50 / 4.51	450	4.500	14,50
48655	.177	Tenex Air	4.49 / 4.50 / 4.51	450	4.500	17,70

Recommended retail prices.

Patented recyclable box

The pellets are packed in a patented resealable and damage resistant box. The box is sectioned into four compartments overlaid with a foam cushion which minimises movement of the pellets and softens the impact if dropped.

X2 / X2 STEEL

NEW: all our X2 shotshells will come with a photodegradable wad, which decomposes faster than a conventional plastic wad under the effect of light and the weather at the range, without affecting performance.

High-performing STEEL at competitive prices!

With its steel load, the X2 Steel offers the best compromise between performance and competitive price while conforming to the strictest environmental standards. Classified as standard pressure, it may be shot in all shotguns proofed at 930 BAR.

AA TRAACKER

The AA Traacker cartridge enables the shooter to visualise the shot trajectory to the target. The design of the core traps the shot and captures the wad, which remains in the centre of the shot's trajectory right up to the target.

Unique helix shaped petals stabilize the wad by rotating it and keeping it in the centre of the shot pattern.

The AA Traacker is available in two colours: Bright orange for difficult shooting conditions and black for shooting in stronger light.

SUPER SPEED® GEN. 2

Greater speed and controlled pressure. The secret of the G2 powder lies in its controlled vivacity, translated to a reduced pressure during its combustion. Our engineers had thus been able to increase the quantity of the powder in each shell and thereby increase its speed by almost 20m/s, all while keeping the pressure under the limit of 740 BAR.

Regularity of patterns

The Super Speed® generation 2 is loaded with the type-"Z" wad with 4 compression legs. This specifically designed plastic wad enables an excellent ratio in its regularity of the patterns, even with the significant improvement in speed, and even at great distances. By welding the centre of the starred crimp, the shell is thus completely sealed and perfectly protected while providing a greater regularity of pressures.

ZZ CANARD

WINCHESTER's FASTEST steel shotshell

The 33 g of steel shot in the new ZZ Canard shotshell flies at 440 m/s, making it the fastest in the WINCHESTER range of steel shotshells. The high velocity is mitigated by the relatively low load weight to maintain a comfortable shooting experience. The steel pellets are coated in a fine layer of tin for effective corrosion resistance.

EXTRA DUO FAISAN / BECASSE

TWO SHOT SIZES for perfect patterning

The new EXTRA DUO range has been developed to deliver double the performance: the shell is loaded with two separate layers of different-diameter shot for a more effective and lethal shot pattern. The larger, faster pellets hit the target first, transferring maximum energy. They are immediately followed by the smaller pellets, which optimise the shot pattern with the maximum number of impacts.

EXTRA DUO FAISAN

The (felt) grease wad delivers optimum shot distribution even at long range.

EXTRA DUO BECASSE

The disperser wad in this shell makes it particularly effective at short range in dense vegetation.

ELEY

GAME LOAD with bismuth shot

BISMUTH SHOT

- the non toxic alternative to lead shot.
To protect the environment.

VIP Bismuth is the market leading alternative to lead shot when reducing the impact on the environment is required. The unique formulation of the Bismuth alloy has many properties similar to lead in density and hardness. The alloy mix also ensures there is a certain malleability to the alloy, which in turn transfers energy into the target to deliver good knockdown power.

Bismuth has no toxic properties and is very safe to handle.

Rifle ammunition lead-free

Why Brenneke?

- Hunt with the confidence of maximum power and excellent accuracy
- Effective, sure kills with minimal damage to meat
- Reliable performance in every hunting situation
- Easy transition between lead and lead-free bullets
- 125 years of experience and innovation by German craftsmen

TUG® nature+

Universal use,
partial-fragmenting bullet

TAG®

Universal use,
partial-fragmenting bullet,
coated copper

1. **Solid copper construction:** Delivers supreme energy transfer and maximizes retained weight.
2. **Large diameter polymer tip:** Accelerates expansion resulting in rapid impact trauma.
3. **Ballistic profile & boattail:** Streamlined profile and boat-tail for flat trajectory.
4. **Huge hollow noise cavity:** Creates consistent and wide expansion for lethal terminal performance on all games and at all distances.

The combination of the Nosler Ballistic Tip bullet with the exclusive Winchester® Lubalox® coating allows for extreme accuracy for hunting and long-range shooting.

The high-speed Winchester® Ballistic Silvertip® bullet provides the flattest of trajectories and is available for:

- varmints, with a single tapered jacket and pure lead core for instant fragmentation
- large game, with a double tapered jacket and a core of harder lead for controlled expansion of the bullet.

POWER-POINT®

1. **Wide diameter polymer tip:** A faster expanding bullet for instant traumatic effect on impact.
2. **Ballistic profile:** The combined aerodynamic profile and polymer tip provide better long-range ballistic performance.
3. **Profiled jacket:** Tapered profile for rapid expansion.
4. **Lead alloy core:** Optimised for greater energy transfer and stopping power.

1. **Protected hollow point**
2. **Lead core bonded to copper jacket**
3. **Contoured jacket**
4. **Optimal expansion** and very high weight retention
5. **The bullet's initial diameter** is more than doubled to give lightning knockdown power

1. **Wide diameter polymer tip:** A faster expanding bullet for instant traumatic effect on impact.
2. **Ballistic profile:** The combined aerodynamic profile and polymer tip provide better long-range ballistic performance.
3. **Profiled jacket:** Tapered profile for rapid expansion.
4. **Lead alloy core:** Optimised for greater energy transfer and stopping power.

Naturalis bullets have always been famous for their great penetration, controlled expansion, powerful shock effect - lead-free.

Lapua is pleased to introduce the third generation of Naturalis in calibers .30, 8 mm and 9,3 mm. Naturalis bullets offer remarkably tough construction and consistently deliver unusually high retained weights. But we've managed to improve them. The latest incarnation of the Naturalis bullets are designed to work over an even larger velocity range.

NATURALIS

A great performing 99% copper bullet retains up to 100% of its weight. The valve at the tip of bullet opens immediately on impact, leading the bullet to expand symmetrically and without shattering. The Naturalis is extremely effective by giving a clean shot and minimizes meat loss.

RESPECTING
THE GAME

Top features:

- Controlled, optimised expansion, ideal penetration, powerful shock effect - not depending on the distance.
- Solid and unbreakable construction, weight retention up to 100%.
- Unique Lapua high tech.
- A clean shot - minimized meat loss - no lead residue in the meat!

This provides not only more possibilities to use the Naturalis bullets over a wider range of cartridges, but also the types of game and shooting distances involved. The new Naturalis bullets will be the first choice for those hunters who prefer the clean kills and minimal meat loss.

MEGA

Traditional hunting performance

The Lapua Mega is for hunting big game. The Mega is a soft point bullet with a protective copper jacket - traditional hunting performance. This ensures that the bullet's lead alloy core remains intact when shooting through brush or branch. Mechanical bonding means that core is firmly locked inside the jacket and will not separate even on hardest impact. The Mega bullet has very high, up to 97% retaining weight after impact on game. It typically more than doubles on impact, causing an immediate shock effect.

SCENAR

The first choice for serious target competition.

Lapua Scenar Open-Tip Match bullets have given superb results at long ranges and bench rest shooting. The Scenar bullets have the IBS World Record in 600 yard Heavy Gun 5-shot group (0.404") and also hold the official world ISSF record of 600 out of 600 possible, an unbeatable score.

SCENAR^L

The ultimate match bullet!

Drawn to even tighter standards of jacket wall concentricity, weight variation and dimensional uniformity, this new line takes our well known reputation for quality to the highest level we've ever produced. The new Scenar^L, the ultimate match bullet!

FMJ

Reliability and accuracy.. Whether you require bullets for training, competitions or serious hunting situations you can really trust the performance of Lapua's FMJ bullet family. Ten rounds loaded with Lapua's .30 S374 8.0/123gr FMJ bullet from 100m can easily achieve groupings less than 30mm. Reliability means that every shot you fire will hit the target.

LOCK BASE

Unbeatable accuracy over extra-long distances A distinctive Full Metal Jacket Boat Tail bullet that has many applications from sport shooting to battlefield. Streamlined ballistic shape combined with patented base design.

D46

Often copied, never equaled The legendary D46 is one by which all others of its type are measured. Manufactured to the strictest tolerances for concentricity, uniformity of shape and weight, it has shot its way to the record books since the 1930's all the way to the 21st century.

LAPUA BULLETS

- unbeatable performance

Lapua bullets are known for their extreme accuracy and superior ballistic designs. From the world famous Scenar and Scenar-L, to the variations of FMJ, all of which are optimised for their intended use, and finishing with the NATURALIS and MEGA for hunters. From Olympic Gold to World Championships or local matches, to the mountains and woods, whatever your shooting pursuit, there is a LAPUA bullet perfectly tailored to your pursuit.

MEGA

Traditional hunting performance for big game hunters.

Lapua's Mega bullet is a soft point jacketed hunting bullet. The Mega is a traditional lead core bullet for all kinds of European and North American game, particularly large game hunting. The mechanical bonding locks the lead alloy in place, keeping the structure together at point of impact.

FMJ / SPITZER

A competition bullet also for small game.

Whether you require bullets for training, competitions or serious hunting situations you can really trust the performance of Lapua's FMJ bullet family. Ten rounds loaded with Lapua's .30 S374 8.0g/123gr FMJ bullet from 100m can easily achieve groupings less than 30mm. Reliability means that every shot you fire will hit the target.

LEAD FREE BULLET

NATURALIS

Precise, versatile, and lead-free: Respecting the game.

The Lapua NATURALIS lead-free projectile is now in its third generation.

Its original concept and design was introduced in 2002. It boasts devastating terminal performance and virtually 100% weight retention for deep penetration resulting in a clean, lead-free harvest of even large big game such as elk or moose.

The new NATURALIS design uses state of the art technology to produce consistent, controlled expansion. The polymer valve design uses hydraulic force to create the optimum mushrooming effect at the widest velocity range on the market.

The bullet is designed and manufactured by using pure copper. The material, design and controlled expansion ensure a solid and nearly unbreakable construction. The weight retention of the bullet, even after impacting on heavy bone, is frequently 100% of its original weight.

SCENAR^L

The ultimate long range match bullet.

The Scenar-L has the refined qualities of the original Scenar bullet with higher standards of jacket wall concentricity, weight variation and dimensional uniformity. Scenar-L has truly earned its reputation as the go-to bullet for the best possible results in long range rifle shooting. For top shooters in the world in bench rest, long range or F-class, Scenar-L is the ultimate match bullet, proven by the countless long range records set using it.

LOCK BASE

Unbeatable accuracy over extra-long distances.

Lapua's Lock Base bullet is a Lapua innovation which combines a full metal jacket and boat tail with a patented base design. This bullet has proven its worth in sport shooting arenas as well as military and law enforcement applications over time.

D46

Often copied, never equaled.

The legendary D46 is one by which all others of its type are measured. Manufactured to the strictest tolerances for concentricity, uniformity of shape and weight, it has shot its way to the record books since the 1930's all the way to the 21st century.

D166

The original FMJBT bullet for 7.62 x 53R/54 cartridges.

The construction of the D166 has remained unchanged since it was developed in the 1930s. The D166 is extremely accurate and features Lapua's familiar incrementally tapered tail.

C356

The Lapua Lead Wadcutter is a widely used bullet for competition shooting in centerfire pistol disciplines.

C427

The lighter 5.35g/83gr Lapua Lead Wadcutter bullet is ideal for military rapid fire and for shooters who require a lower recoil.

LAPUA brass - consistent quality

LAPUA manufactures its world leading cases from the highest-quality raw materials. As a result our cases maintain exact tolerances over multiple reloading cycles.

The bases of our cases are hard and resilient and therefore maintain their shape. Also, the necks of our cases are absolutely symmetric and annealed. Their bluish colour is not an indication of poor finishing, but a LAPUA trademark.

AKAH hunting binocular 8x56 GA

The AKAH hunting binocular will match all needs of the hunters. A light strong binocular in a compact and elegant design. Modern fully coated lenses and BAK-4 prisms provide in connection with the large objective diameter a bright, detailed, high-contrast image reproduction. The green rubber armour absorbs moisture and is comfortable and safe to hold. Multi-stage twist-up eyecups and central focus of the grip with integrated diopter compensation ensure simple operation even with gloves.

Included is a high quality hard case with a neoprene strap, eyepiece and objective lens protection caps

50075 8x56 GA € 229,-

AKAH Binoculars 8x26 OB / 8x42 OB / 10x42 OB

AKAH quality optics for stalking, bird-watching or observation of nature.
New outlook with open-bridge design for easy one-hand operation. Fully multi-coated optics for higher light transmission. BAK-4 roof type prism for clear, bright resolution images. Waterproof, for proof with nitrogen filled thermoplastic-body with green rubber armouring. Twist-up eyecups. Comes with soft case, carrying strap, eye-piece and objective covers.

50076 8x26 OB € 59,-
50077 8x42 OB € 149,-
50078 10x42 OB € 149,-

AKAH Rangefinder X-Range

This very compact monocular laser rangefinder shows per button exactly the distance up to 600 m and is switchable from meters to yards. Various operating modes (standard / rain / reflection measurement) can determine distances even under poor measurement conditions.

Specifications:
Magnification: 6x.
Objective lens diameter: 25 mm.
Weight: 180 g.
Dimensions: 130 x 90 x 50 mm.
Splash-water-proofed.
Battery: 1x CR2 3V.
Laser: Class I (eye safe).

PASSION™ HD Line

Designed & Engineered in Germany

New

GPO PASSION™ HD

**Premium class binoculars
- ideal, light companion for high
quality observation**

PASSION™ HD represent the absolute premium class from GPO. HD optical design combined with state-of-the-art multi-layer coatings creates optical excellence in transmission, field of view, edge-to-edge sharpness, close focus and colour reproduction. Thanks to our hydrophobic coating PASSIONdrop™ all optics are dirt and water repellent. The innovative microbridge offers a high quality and very ergonomic design. Magnesium housing, coated magnesium bridge and the fully machined aluminium rotary eyecups provide maximum ruggedness with minimal weight.

The diopter adjustment was integrated in the central focusing wheel to provide comfortable ease of use. If you do not want to compromise on the quality of your binoculars and are looking for an extremely fair price-performance ratio, you will find it here.

Comes with:
instruction manual, cleaning cloth, hard case, neoprene neck strap, hard case strap, objective covers, ocular covers.

Large, comfortable eye relief

Transmission daylight > 92%

Leica Geovid R.

Robust, leicht und bewährt.

LICHTSAMMLER

1 Geovid 8x56 R

2.100,- €

Leica Geovid R. Fernglas und Entfernungsmesser – beides in einem Produkt.

Die Fokussierung auf wenige, wesentliche Merkmale machen die Geovid R Modelle erschwinglich für all diejenigen, die sich bisher noch nicht für ein Entfernungsmesser-Fernglas der Premiumklasse entscheiden konnten. Die Messreichweite von 1.100m ist für die meisten jagdlichen Anwendungen ideal. Die grundlegende Ballistikfunktion zur Winkelkompensation wurde integriert, um die Sicherheit für den waidgerechten Schuss noch weiter zu erhöhen – bergauf und bergab.

2 Geovid 8x42 R

3 Geovid 10x42 R

4 Geovid 15x56 R

Leica Geovid HD-R 2700.

Mit linearer, ebenengleicher Entfernung (EHR).

Leica Geovid HD-R 2700 Entfernungsmesser.

Die Geovid HD-R 2700 Modelle kombinieren ergonomisches Design mit gestochen scharfer, kontrastreicher Optik und zuverlässiger Entfernungsmessung. Eine intuitive Bedienbarkeit ist garantiert, da zur Ausgabe der ebenengleichen Entfernung (EHR) keine vorherige Programmierung notwendig ist. In bergigem Gelände erhalten Sie durch die Ausgabe der winkelkompensierten Schussentfernung mehr Sicherheit und Flexibilität. Der Leica eigene Algorithmus berücksichtigt neben linearer Distanz und Winkel immer auch eine realistische Geschossflugbahn und ist deshalb genauer als die Rifleman's Rule (Cosinus-Funktion). Das Ergebnis ist eine höchst präzise Berechnung der echten, ballistischen Distanz (EHR) bis 1.100 m/1.200 yds.

Leica Rangemaster. Maximale Präzision und Sicherheit.

Leica Rangemaster CRF 2800.COM

Die einzigartige Kombination aus Bluetooth®-Konnektivität, präziser Distanzmessung, ballistischer Funktionalität und Optik höchster Güte im kompakten Design bietet hohe Präzision und Sicherheit bei der Entfernungsmessung. Die Einstellung des individuellen Ballistikprofils über die Leica Hunting App ist einfach und komfortabel. Via Bluetooth® erhält der Rangemaster 2800.COM die individuellen ballistischen Daten.

Leica Rangemaster CRF 2400-R.

Flexibel, handlich und mit ballistischer Funktionalität – das perfekte Einstiegermodell für alle, die Wert auf zuverlässige Messergebnisse im unwegsamen Gelände legen. Der CRF 2400-R gibt Ihnen präzise die lineare und ebenengleiche Entfernung an.

9 Rangemaster CRF 2800.COM und Leica Hunting App

Leica Entfernungsmesser im Überblick: Geovid und Rangemaster

Alle Leica Entfernungsmesser mit AquaDura®-Vergütung, außer Geovid R-Modelle.

Leica Ferngläser.

Universell, kontrastreich und brillant.

1 Noctivid 10x42

2 Ultravid 8x50 HD-Plus **3** Ultravid 10x25 BR

Leica Noctivid.

Ein Jahrhundert gewachsenes Wissen wird Wirklichkeit.

Über ein Jahrhundert Erfahrung in der Entwicklung von fernoptischen Geräten, Mikroskopen und Kameras gipfeln heute in der innovativsten Familie unter den Leica Ferngläsern: den Noctivid. Die Meilensteine setzen die Mechanik und Optik der Leica Fernglasfamilie. Bei den optischen Werten vereint das Noctivid das Beste aus innovativen und bewährten Technologien. Die bereits in der Leica Ultravid HD-Plus Optik eingesetzten Schott HT™ (Hochtransmissions-) Gläser sorgen auch im Noctivid für verblüffend natürliche Farben und höchste Transmission. Komplexe, innovative Blendensysteme zur Streulichtunterdrückung ergeben detailreiche, brillante Bilder bis zum Rand mit gestochen scharfen Kontrasten. In jeder Lebenslage einsetzbar, setzen diese Ferngläser auch im Design Maßstäbe: Kompakt in den Abmessungen, stilvoll und elegant, trotzdem unglaublich robust und belastbar.

Leica Ultravid HD-Plus.

Universell einsetzbar, licht- und kontraststark.

Die Ferngläser der Ultravid HD-Plus Serie sind die perfekten Universalgläser, von der Treib- bis zur Ansitzjagd. So werden bei den HD-Plus Modellen besondere Schott-Gläser mit hervorragender Transmission (Schott HT™ Gläser) für die Prismen eingesetzt. Zudem wurde die optische Leistung durch neue, innovative Coating-Verfahren verbessert, was zu mehr Transmission im blau-violetten Spektralbereich führt und damit zu einer höheren Bildhelligkeit, verbesserter Farbübertragung und deutlich gesteigertem Dämmerungssehen.

Leica Ultravid Kompakte.

Sie sind heller, brillanter und robuster als andere Ferngläser dieser Objektivröße – und sie passen in jede Jackentasche. Die erste Wahl für alle Naturliebhaber, die in die professionelle Beobachtung einsteigen möchten. Auch in beledert schwarz und beledert silber erhältlich: Modelle und Preise auf Anfrage.

Leica Trinovid Klassik.

Die Rückkehr der Fernglas-Ikone.

Die Leica Trinovid-Ferngläser sind eine Hommage an die Fernglas-Ikone der 1960er Jahre. Formschön, schlank und elegant im klassischen Fernglas-Design mit schwarzer Beledung sind sie ein Statement und zeitloses Accessoire, um die besonderen Momente intensiv zu erleben. Die präzise, leistungsstarke Premium-Optik, die Anwendern einen beeindruckenden Überblick beschert, sorgt zusammen mit der intuitiven Bedienung dafür, dass auch kleinste Details entspannt beobachtet werden können. Neueste Glassorten und Vergütungen garantieren brillante, natürliche Farben und kontrastreiche, lichtstarke Bilder bis zum Rand. Geschützt durch ein ultraleichtes Aluminiumgehäuse und modernste Materialien, sind die Trinovid-Ferngläser robust, klimafest, spritzwasser- und regendicht. Auch unter intensiven Bedingungen sind sie jeder Herausforderung gewachsen und somit der perfekte Begleiter, egal ob auf Reisen oder Wandertouren.

6 Trinovid 8x42 HD

7 Trinovid 8x20 BCA

5 Trinovid 10x32 HD

995,- €

Leica Trinovid HD. Robust und zuverlässig.

Die Trinovid HD Modelle bestechen durch ihre hohe optische Leistung und sind gleichzeitig extrem robust. Dank der bewährten Leica Optik bieten sie starke Kontraste, eine brillante Farb-

wiedergabe und eine sehr gute Lichttransmission. Die griffige Gummiarmierung macht sie unvergleichlich widerstandsfähig und bietet perfekten Halt bei allen Wetterbedingungen. Für schnelleren und besseren Überblick in jeder Jagdsituation.

Leica Trinovid Kompakte.

Die Trinovid BCA sind kleine, hochwertige Kompaktferngläser, die technisch gesehen selbst den Vergleich mit vielen größeren Ferngläsern nicht scheuen müssen. Für den Einsatz zum Beispiel auf langen Touren oder auf Reisen.

SPECTRA™ Line

Designed & Engineered
in Germany

SPECTRA™ 5x 3-15x56i

New

SPECTRA™ 4x

Slim design, short length and low weight

Thanks to their 30 mm center tube diameter, the 4x zoom riflescopes impress with their slim design, short length and low weight. The outstanding optical quality is highlighted by wide fields of view and high light transmission values. Large lens diameters provide reserves of light until deep into the twilight. Unique in this class are the illuminated 4xi models featuring iControl™ illumination with automatic shut-off.

SPECTRA™ 5x

Take your shooting experience to a higher level

Aimed to take your shooting experiences to a higher level, the SPECTRA™ 5x riflescope models offer precise, reliable and high-quality performance for diverse hunting scenarios. 30 mm main tubes, GPObright™ lens coatings and iControl™ illumination technology are just some of the features you will find in these models. Packed full of performance to help you enjoy your passion.

SPECTRA™ 6x

Reliable and high-quality performance for diverse hunting scenarios

The SPECTRA™ 6x riflescope models are precise, high quality and reliable, making them real all-rounders. To name just a few features of the range: 30 mm center tube, GPObright™ lens coatings, zeroing without tools and iControl™ illumination technology.

All GPO scopes come with:
instruction manual, cleaning cloth, bikini scope cover, battery CR2032

SPECTRA™ Line GPOTAC™ Line

Designed & Engineered
in Germany

New

SPECTRA™ 8x 1-8x24i

SPECTRA™ 8x

For the most demanding user

A special line intended for the most demanding of users. The expansive 8x zoom span combined with top-quality materials and meticulous attention to detail in the manufacturing process results in the perfect riflescope for driven and big game hunting, also during the harshest lighting conditions.

In addition, the riflescope has an illuminated reticle. The illumination control is continuously adjustable and can be adapted to all possible lighting conditions. Further features: tool-free zeroing, and a throw lever. Thus you are equipped for all situations.

GPOTAC™

Tactical riflescopes with high-demand features

This line of tactical riflescopes packs incredible high-demand features into every item. Massive mil-rad turrets, mil-spec horseshoe reticles, iControl™ illumination with auto-off functionality and stunning optical performance will shake shooters to their core.

Built with 30 mm and 34 mm main tubes, these riflescopes allow for an optimal range of adjustment. Feature for feature, spec for spec, you will find no better optic for your demanding needs.

SPECTRA™ Dot

- GPObright™ objective coating
- IPX 7 sealing
- Weaver- and Picatinny rail
- MOA travel value: 1/2 MOA = 1 click
- Red dot Ø: 3 MOA
- Illumination control: 6 day, 5 night settings
- Battery runtime: up to 50.000 hours
- Battery: CR 2032

SPECTRA™ Dot 1x20

Meets all your shooting needs

In the development of the SPECTRA™ Dot GPO implemented all relevant features like day and night settings, high efficiency power management with a battery runtime up to 50,000 hours, weaver and picatinny mount, and IPX 7 sealing. The compact and lightweight design makes the SPECTRA Dot your perfect choice for all fast acquisition targeting and fits on most rifles. It is equipped with windage and elevation tactile click adjustment. The red dot brightness also enables the use of the GPO SPECTRA Dot in bright light conditions.

Comes with: Instruction manual, cleaning cloth, allen key, objective and ocular caps, low profile picatinny/ weaver mount.

Lahoux Optics

Night Vision

Hunting - a centuries old tradition that combines passion and respect for nature. The hunter wants and must be able to rely on his technology 100%. Night vision and thermal imaging technology is an important component in making hunting even safer and more successful.

Night vision devices from Lahoux offer more safety and success in responsible hunting due to a photo-realistic image.

Lahoux LV-81

Due to the long focal length of 80 mm, this device is particularly suitable for observation at longer distances. The objective lens with its special AR coating ensures high transmission values and an incomparably sharpness. The lens system and the built-in image intensifier tube harmonize optimally in terms of image quality and precision. All components have been designed and assembled to ensure the best possible shock resistance.

- Bright 80 mm objective
- Long battery endurance, up to 85 hours
- Accuracy < 29 mm at 100 m
- Field of view: 13,89 m at 100 m

Lahoux Hemera

The new Lahoux Hemera's spear points are its compact size and large field of view while maintaining many LV-81 characteristics. This makes this clip-on an All-rounder especially suited for forest use at short and middle distances and stalking. The High-Contrast Lenses and the intensifier tube are mounted individually and shockproof. The Lahoux Hemera features an auto-shutdown after one hour.

- Compact housing
- Long battery endurance, up to 30 hours
- Accuracy: < 29 mm at 100 m
- Field of view: 35,70 m at 100 m

Rheinisch-Westfälischer
JÄGER
Test 10/2020

Bright, low-noise image,
high edge-to-edge sharp-
ness, rich in detail.

Features of LV-81 and Hemera

- Observation & clip-on device
- 100% Made in Netherlands
- Intuitive one-hand operation
- Very high edge-to-edge sharpness
- Shock-proof and precisely built components
- Auto shut-down after one hour
- Incl. two mounting rails
- Auto-gating and manual gain control for Echo/Echo HF tubes

Lahoux Spotter

The NightViewer model range comprises of several small and compact thermal cameras for several types of use. Especially developed for simple and fast use multi-colour display for an improved image: black-hot, white-hot, red-hot, colour. Some models also offer the option to transfer images or video, through an app and WIFI, real time to a smart phone.

- Intuitive one-hand control
- Lightweight and compact housing
- User-friendly interface
- Sensitivity (NETD) < 50 mK
- Wide operating temperature range
- High frame rate of 50 Hz
- Up to 4x digital magnification
- Integrated rechargeable lithium-ion battery with up to 4 h power in continuous operation
- Water-proof (acc. to IP66)
- Can be used by day and night
- NightViewer 35 / Elite 35 / Elite 50: their sensor with 12 μ m has a detection range that is 1.4 times larger than 17 μ m.

Lahoux Optics

Thermal Imaging

 Made in the Netherlands

Lahoux Horus

The Lahoux Horus is a multifunctional thermal imaging camera of the latest generation. It is defined by:

- Efficient power consumption - extremely efficient power supply - more than 10 hours of uninterrupted operation possible.
- 12micron technology installed.
- Momentary Zoom - the device is therefore always ready for use in attachment mode, and digital magnification can be used at lightning speed if required.
- Easy handling - simple operation of the device possible due to optimised key assignment.
- High Zoom Option - by using the latest system components, magnification with primary optics up to 10x is possible.
- DRI value: 2108 / 527 / 264 m

New

Lahoux DigiClip / DigiClip Pro

Thanks to the high-contrast glass and the high-resolution Sony HD-CMOS sensor, the Lahoux DigiClips outshine comparable cameras with their outstanding image quality. The metal housing (IPX6 protection class) makes them robust and durable. These attachments have 100% repositioning repeatability and high shock resistance. They are compact and have an ergonomic design that facilitates handling. The easy-to-reach focus knob and fine grid ensure easy focusing.

- Great target detection and identification distance ranges during night and twilight;
- Time-proven reliability and durability combined with ease of operation with no any complicated programmable Menu
- 1280x720 HD sensor with 1280x960 HD OLED display
- Great recoil resistance with heavy calibers such as 12 cal., 9.3x64, .375H&H
- Great repeatability which is not more than 0.3 MOA when taken OFF and ON weapon, and again;
- Can be used during daytime
- Supports USB power banks, PB-1 and PB-2R
- **LAHOUX DigiClip:** with 36mm objective, detection range (wild boar): 400m
- **LAHOUX DigiClip Pro:** with 54mm objective, detection range (wild boar): 500m

The sensor harmonises excellently with all current IR illuminators available on the market. There is no cross-fading.

Lahoux Optics

Thermal Imaging

Lahoux Clip

The Lahoux Clip is one of the most affordable and reliable thermal imaging attachments in the entry-level class in terms of all its features. In combination with the separate battery extension, a battery runtime of up to 6 h (Clip 32) or 10 h (Clip 42) is possible.

- Small, compact, lightweight and durable design
- easy to use, no re-zeroing required
- excellent imaging
- Several scene modes to highlight the target effectively
- Build-in Bluetooth, compass, motion sensor
- Video output: PAL or NTSC
- OLED display, capable of displaying images in various colour modes
- Detection range above 1.5 km
- Power supply: 2x CR123
- Encapsulation IP67

AMR

Thermal Vision Target Pads

Optimal for calibration of guns with thermal scope

With the AMR Thermal Vision Target Pads the calibration of thermal imaging devices mounted to firearm optics is now possible in a particularly efficient and cost-effective way.

The activation of the heat pad starts when exposed to air. The specific combination of the ingredients contained in the heat pads (especially activated carbon) ensures their automatic heating. The pad reaches its optimum calibration temperature of 38°C within a few minutes. Then target the heat pad with the thermal imaging device mounted to the optics of your rifle and optimise the thermal view. The round shape and small diameter of the pad allow spotting of unwanted shot deviations.

38960.000 box with 10 target pads € 9,99

Lahoux Optics

Accessories

Lahoux Helios

IR illuminator

suitable for nightvision devices as LV-81 and Hemera

The Lahoux Helios IR illuminator works on LED basis. It supports the night vision device with very little residual light. Similar to a torch, the observation sector is illuminated and thus provides a brighter and sharper image. This light is invisible to the human eye because it works at a wavelength of 855 nm. The spotlight is infinitely dimmable and focusable.

Delivery incl. mount.

effective illumination range

50730.000	Helios Standard 855 nm	< 500 m	€ 580,-
50731.000	Helios Pro 855 nm	< 1.000 m	€ 729,-
50731.100	Helios 945 nm	< 200 m	€ 759,-

Lahoux

Magnification monocular + Insertion ring

suitable for clip-on devices as LV-81, Hemera, Horus or Clip

The observation monocular is simply screwed onto the thread of the eyepiece and transforms the device into a hand-held observation device.

With the aid of the insertion ring (available in different sizes), the magnification monocular can also be used in conjunction with the clamping adaptor ring.

50735	Magnification monocular	€ 128,-
50736	Insertion ring	€ 23,90

Rusan Adaptor ring

suitable for clip-on devices as LV-81, Hemera, Horus or Clip

A fast and easy to use quick-release adaptor for mounting a night vision device to a primary optic. To make sure the primary optic is not damaged or scratched, the inside of the adapter has a special layer. Comes with thread M52x0,75. The adaptors are available with a diameter of 30 mm - 65 mm. To determine the correct size the outer diameter of the primary optic is leading.

Leica Calonox.

Wärmebildkameras für die zeitgemäße und waidgerechte Jagd.

1 Calonox Sight

2 Calonox View

Leica Calonox View.

Mehr sehen, sicher ansprechen.

Für alle, die Wild auf weite Distanzen finden und sicher ansprechen wollen, ist die Leica Calonox Wärmebildkamera View perfekt. Die Leica eigene Bildverarbeitung (Leica Image Optimization – LIO™) optimiert das Bild und erzielt besonders detailreiche Farbabstufungen, hervorragenden Kontrast und hohe Detailauflösung. Das Calonox View bietet 12 µm Pixelgröße bei hervorragender Temperaturauflösung. Das 42 mm Objektiv in Kombination mit der 2,5-fachen optischen Basisvergrößerung ermöglicht ein großes Sehfeld und besten Überblick. Mittels Digitalzoom bleiben auch auf großen Distanzen keine Details verborgen.

Vier Farbmodi für

kontrastreiche Detailerkennung.

Die praxiserprobten Farbmodi White Hot, Black Hot, Red Hot und Rainbow sorgen für praxisnahe Darstellungsvarianten und eine größere, kontrastreiche Detailerkennung.

Leica Calonox Sight.

Sicher erkennen, waidgerecht erlegen.

Wenn es darum geht, Wild in tiefster Nacht sicher anzusprechen und waidgerecht zu erlegen, ist das Leica Calonox Wärmebildvorsatzgerät Sight die erste Wahl des modernen Jägers. Selbst auf Entfernungen bis zu 2.000 Meter erkennt es Wärmequellen und die 17 µm Pixelgröße liefert kontrastreiche, detailreiche Bilder in den vier Farbmodi.

Maximale Präzision und Wiederholgenauigkeit.

Das Leica Calonox Sight zeichnet sich durch eine wiederholgenaue Treffpunktlage aus. Es kann dabei ganz einfach mit einem zum jeweiligen Zielfernrohr passenden Adapter verbunden werden. Das erstmalige Einschießen ist leicht und kann auf dem Schießstand selber ausgeführt werden.

Leica Calonox Apps.

Einfach, schnell und unkompliziert unterstützen die beiden Calonox Apps bei der Bedienung der Thermalkameras: Das Leica Calonox View kann von allen Beobachtungen Fotos oder Videos speichern und diese per WLAN auf das Smartphone übertragen. Als Unterstützung beim Einschießen lässt sich das Leica Calonox Sight über Bluetooth mit dem Handy verbinden und in der App per Remote Control steuern.

Leica APO-Televid Spektiv.

Leistungsstark und kontrastreich.

25x Vergrößerung

50x Vergrößerung

1 APO-Televid 82 Winkeleinblick (45°)

Leica Hochleistungsspektiv.

Das Leica APO-Televid Spektiv mit seinem apochromatischen Objektiv nutzt moderne Fluoridglassorten für eine perfekte Abbildungsleistung. Dazu ist die innere Optik durch ein zusätzliches Frontlinsenglas geschützt. Das äußerst lichtstarke Objektiv mit einem Durchmesser von 82 mm liefert extrem detailreiche Bilder. So ist eine erstaunlich genaue Beobachtung selbst bei schwierigsten Lichtbedingungen möglich. Darüber hinaus ist das APO-

Televid 82 W prädestiniert für die professionelle Digiskopie.

Im Premium-Segment bietet Leica perfekt aufeinander abgestimmte Komponenten für eine Digiscoping-Einheit von höchster Qualität. Die passenden Digiscoping Adapter sind optimal auf das Leica APO-Televid und die Leica Kameras abgestimmt. Ihre hochwertige Verarbeitung aus leichten, stabilen Materialien sorgt für eine präzise und sichere Verbindung, ohne das System zusätzlich zu beschweren.

SPYPOINT CELL-LINK

Your link to the future!

This universal mobile adapter transforms your conventional trail camera into a cellular camera.

Who does not know it: numerous trail cameras are placed in the hunting ground, all are working to full content, but not one of them can radio? What to do now? Throw them all away and buy new cellular cameras? Not necessary, because:

The CELL-LINK brings scouting to the next level - the mobile level - through transforming your camera into a cellular camera. Profit from the SPYPOINT experience and the associated progressive digital scouting functions.

- Possibility to retrofit present trail cameras.
- Integrated LTE-capable SIM card *.
- Uses the SD card slot of the "old" trail camera to access the pictures on the camera and send them to the Spypoint Mobile App.
- Extremely compact and discreet.

74095.000 € 99,90

* We would like to explicitly indicate that all SPYPOINT LINK cameras has an SIM lock.
The cameras can therefore only be used with the included SIM card. Operations with SIM cards from other providers are not possible.

AKAH-Leathergoods

World famous - unsurpassed - cannot be copied

Since 1853 **AKAH** is a synonym for high class handmade leather goods. Since 5 generations "Made in Germany" is the hallmark of the still family owned company in the Cologne area.

Facing food scandals, chemical allergies and air pollution modern human beings long for natural healthy resources. Clothing tends to use merely fibres from renewable raw materials. So more and more dog keepers want to buy collars and leashes made from hides of free-living animals.

Since 167 years hunters and dog friends can rely on toxin-free, vegetal tanning of AKAH leathers. AKAH merely uses hides from Alpine cows, Finnish moose and Mongolian yak bovines. They all tell the life story of a free-living creature with all its natural grains and scars. AKAH never over-sprayed this life biography.

Since centuries hand stitching is the highlight of leather manufacturing. AKAH saddlers are trained for 3 years in the art of sewing with 2 needles and 2 yarns at the same time.

Each hand stitched collar, each hand stitched leash is **UNIQUE** - made by a specialist saddler for one specific dog keeper.

AKAH-Service:

We laser your initials or your name to personalise (max. 30 letters).

Additional charge: € 3,-

Other possible laser motives are wild boar, stag or hunting dogs.

Additional charge: € 5,-

Traditional AKAH hunting bags

These models have been designed around 1853. Generations of hunters have filed on their practicality and interior fittings.

Today those bags are a huge success with fashionable women.

AKAH Gun Slings

MADE IN
GERMANY

The manufacturing of gun slings is one of the specialties of the AKAH saddlery since 1853. There is worldwide no better and more experienced manufacturer.

Handmade by AKAH saddlers: Where the sling has to carry the full weight of the gun, we use only traditional hand-stitching.

Leather: We use only ecological tanned leather: no chemicals, no allergic risk, no environmental stress - nature pure!

25 mm width, **beautiful gloss**, 2 leather-covered buckles and with stippled rubber lining.
Length: 96 cm.

67225.000

67225.100

€ 35,50

BUFFALO leather with Pull-Up effect and anti-slip cork, handmade, padded, 37 mm broad, length 105 cm

67273.100

€ 59,50

Buffalo leather with Pull-Up-Effect

Our pull-up leather is deeply impregnated by hand with oils and waxes. When the leather is bent or pulled, the oils move around within the skin causing lighter tones and interesting colours to become visible. It gives the leather more interesting character that changes with use.

Pull up leather is water-resistant due to intense greasing.

Pull up leather has the advantage of aging well and looking more interesting as they distress. Pull-up leather develops a distinctive and individual leather patina which results in a "used look".

A product with character **for those who admire leather!**

Cork

For almost 2000 years, the bark of the Portuguese and Spanish cork oak is processed into cork: A natural product which preserves and at the same time oxygenates valuable goods such as wine. In recent years, the remains of the cork production are ground into granulate and used for non-slip floor coverings, breathable shoe inlays and even drive belts.

As a worldwide innovation, the AKAH saddlery uses cork as support for rifle slings due to its abrasion, moisture and slip resistance. Natural leather from natural tanning and cork as natural product are complementary at AKAH.

Feel the nature!

AKAH Quality

MADE IN GERMANY

Who's looking for quality, may have a closer look at our leather goods.

AKAH leather craftsmen at work

Mind this brand ...

The highlight, the prime of leather processing, is the real hand seam

Three years an apprentice has to learn in the AKAH saddlery to become a qualified journeyman. After that we still expect a three year learning phase until eye-hand coordination is perfect.

We take our time to train our expert staff

With every stitch we can proof how we invest in time: It takes about one minute to attach a buckle with rivets. To do this with a well done hand seam takes about eight times longer. What is meant to last takes longer! Time is converted into quality.

With AKAH every product is unique

We don't use leather sprayed with colour. We take our time to read the life story of a hide and stamp out every piece by hand. The trained eye of AKAH saddlers can see if a scratch is only a cosmetic problem or if the leather is disturbed.

Exclusive leather equipment for dogs

95671.040 Length 40 m € 55,-

AKAH MOXON Leashes

A moxon leash is a combination of collar and leash for quick leashing and unleashing of the dog.

Ideal for hunting, retrieving and duty dogs. The leash is simply pulled from the dog's head. Getting caught in the undergrowth is prevented. The pull limit prevents choking on the dog's neck. A leather stopper offers additional comfort. The round rope is particularly fur-friendly, the material also feels comfortable in the handler's hand.

2 Sling leash DOG-ROPE

Length: 205 cm, Ø rope: 10 mm, pulling power: 2600 kg

95453.001 colour: blue-yellow € 59,-

95453.002 colour: blue-orange € 59,-

AKAH LANDLORD Series

AKAH-PREFERENCES

- More resilient than ropes from other manufacturers, as one rope is used for industrial climbers (1800 kg breaking load).
- Particular tensile strength, all connecting pieces double stitched with the AKAH hand seam.
- The dirt-repellent material is easy to clean.
- All processed metal parts are nickel-plated. No corrosion!

1 Moxon Leash / Sling Leash SAFE PRO

Advantages by simply pushing the metal device to and fro:

1. Width of dog collar can be adjusted to any dog's neck.
2. Sling leash can be adjusted to height of any dog keeper.
3. Only one lead for 2 dogs.
4. Game carrier for wild bore, stag or chamois.

Length: 275 cm incl. collar (65 cm - 20 cm), Ø rope: 8 mm

95454.000 colour: blue-yellow € 59,-

95454.001 colour: blue-orange € 59,-

AKAH SPECIFICS

Handmade from genuine technical climbing ropes with 11 mm diameter. Pulling power 2580 kg, stretching power 4,2 %. Our Liros Safe Pro rope is weather restraint and washable. All seams are extra fastened by hand stitching.

Handcrafted leather dog leashes

AKAH cuts these leashes out from extra long pieces of core leather. Then our craftsmen sew these pieces per hand straight and plain together. Doing a leash this way is quite expensive, because we use only leather from the small back of the skin and not of the lower quality piece from the belly part of the hide. Cheap leashes are cut spirally from the entire cow hide (including flanks and belly). They deform when used. grain leather hand crafted and hand stitched buckle holders.

WAIDWERK

Der Jagdhelfer

CAN BE LEFT IN THE WOODS

1 WAIDWERK Concentrate for Blood Trails

Produced in a special procedure out of natural blood, by spray-drying at 300°C to get natural proteins in powder without additional synthetic smell or flavour. The concentrate has to be diluted with water in proportions of 1:15 to 1:20. A very intensive smell of blood is produced and can only be perceived by the dog. If the young dog is trained exclusively with WAIDWERK blood concentrate during the basic training. Later natural misleading trails will cause less problems.

450 g **96452.001** (1 kg = € 75,-) **€ 33,75**

2 WAIDWERK Scent Shoe Classic

Made of highly elastic PU foam for comfortable laying cold tracks. The sole of the scent shoe is equipped with several threads M5. In case the track is laid in difficult terrain soccer studs (not included) can be screwed into these holes. Suitable for fixing hoofs of deer and boar.

1 pair **96450** **€ 109,-**

3 WAIDWERK Marking Tape

The marking tape can be used to mark shot game, wounded game, or tracking course. 20 mm width, coil of 75 m length. Available in red or yellow. In the woods red can be seen best. For hunters with a red/green-weakness or to mark two different tracks, the yellow tape is recommended. The tape can be left in the woods because it will decay quickly and completely.

Red marking tape **96470.001**

Yellow marking tape **96470.002**

Blue marking tape **96470.003** each **€ 3,-**

4 WAIDWERK Training Duck

Same size, weight and appearance as a real duck. Pending head of solid plastic, body of soft plastic - this enabling the retriever dog to carry the duck smoothly. Perfect training for examinations. Dummy can swim. Minimum need of real animals for training.

45 cm length **96464** **€ 49,90**

5 WAIDWERK Game Dummy Rabbit

Newly developed Game Dummies made of dyed PU-foam. The colour will not come off; the dummy will not discolour. All parts are replaceable if needed. You can make the head or back part "hang" by loosening the clamping rings. In this way you can make the dummy look realistic like dead deer. Between the front and back parts you can put metal disks to make the dummy heavier. In the middle part, there are 2 holes to insert pieces of felt which can be treated with the corresponding scents. Using these dummies all training exercises can be realized to prepare the dog for hunting trials.

3 parts, 0,75 kg **96461** **€ 49,90**

More Safety for your Dog

Muzzles handmade by AKAH

AKAH specialists are worldwide well known for making muzzles in which dogs feel comfortable.

1 Muzzle BORK

This top model, handmade by AKAH saddlers, is a **special construction for dogs „GERMAN SHEPHERD“**. It fits 100% to this species of dog.

AKAH guarantees safety only for the original species of „GERMAN SHEPHERDS“

To make sure that other species of dogs feel comfortable with our muzzle and to protect their owners, we need the special measurement of their heads and noses, according to the sketch below:
Length: 35-60 cm

Stock N°	Size	
96260.006	6	€ 186,-
96260.007	7	€ 186,-
96260.008	8	€ 192,-
96260.009	9	€ 192,-
96260.010	10	€ 196,-

1 Muzzle MECHELAAR

like model Bork, **only for Meche-laar dogs.**

Stock N°	Size	
96259.005	5	€ 185,-
96259.006	6	€ 185,-
96259.007	7	€ 186,-
96259.008	8	€ 186,-

Please measure from the tip of the nose to the back of the ears.

Sizes for muzzles

Sizes	5	6	7	8	9	10
cm	20	23	26	29	31	33

Training muzzles / agitation muzzles

- The muzzle is lightweight even when wet and does not hinder the dog.
- The risk of injury to handler and dog from rivets, splints or buckles is extremely low.
- The air supply is always guaranteed even under difficult conditions (e.g. dog digging in damp soil).
- Easy care construction.
- Due to its construction, the muzzle is less likely to require repairs.

NaturVital® — HIGH ENERGY —

VOLLKOST für den AKTIVEN Jagdhund

For dogs with increased energy requirements

NaturVital® HIGH ENERGY has an outstanding position among dog feeds. Gluten- and grain free.

97351.012 12 kg (1 kg = € 5,50) **€ 65,95**

Feeding recommendations

For NaturVital® and NaturVital® High Energy:

Approx. 1,2 % of the dog's body weight = a 10 kg dog gets about 120 g a day. Fresh water must be available all day long.

Mixing of NaturVital® and High Energy is recommended and allowed.

Plenty of beef:

41,80% (dried beef), high protein supply

Cold pressed oils:

linseed oil, nut oil, salmon oil

Supplementary nutrition:

linseeds, canaliculus, extract of mussels

Mix of fruits:

apples, pears, blueberries, cranberries, cherries

Selection of healthy vegetables:

such as peas and lentils, beetroot, spinach, chicory, fennel, artichokes, alfalfa

Herbal mixture consisting of:

White thorn
Ginseng
Nettles
Marigold
Birch leaves
Goldenrod
Chamomile
Grape cores
Yucca

 10 kg	Dachshund / Beagle / hunting terrier with approx. 10 kg Recommended daily ration: 120 g
 20 kg	Small Munsterlander / Griffon / Springer Spaniel with a body weight of approx. 20 kg Recommended daily ration: 240 g

Stöberhundgruppe Sauerland e.V.

" ... The adaptation to NATURVITAL® food went completely smoothly with all the dogs, from the bracke to the pointing dogs and terriers. Without exception, the dogs accepted the food well. The positive response to the feed was also reflected in a generally good vitality, high performance in hunting and a perfect coat. The droppings were also significantly reduced compared to other feeds, which proves the optimal utilisation of the feeds.

During the actual hunting season, the dogs were also given HIGH ENERGY feed, which also proved to be completely unproblematic. Here, a pronounced performance level and faster regeneration after difficult, energy-consuming activities could be observed with all dogs."

NaturVital®

Futter für Jagdhunde

Sole food for hunting dogs of every age.

Men and dogs unite the same maxim:

Only healthy nutrition provides energy and protects against diseases.

NaturVital® is specific food for hunting dogs.

Trust our dog food NaturVital® !

It's concept is natural food, based on the needs of all hunting dog races.

97350.005	5 kg	(1 kg = € 4,70)	€ 23,50
97350.014	14 kg	(1 kg = € 4,24)	€ 59,30

Protein

by poultry (28%) of highest European quality.
No bills, no feathers, no claws, no blood.

Protection against diseases

by herbs.

No chemical ingredients

no genetic engineering, no garbage
or lactose products

Cold pressing production

for conservation germ oils and Omega 6.

Sufficient vitamins

Good digestion

by roughage from steamed rice
and Indian corn.

1 GRABBER® Warmers

GRABBER® has the head-to-toe solution to keep you toasty and comfortable, no matter the temperature. All GRABBER® Warmers are designed for one-time, disposable use. Clean, safe, odourless, dry and nontoxic heat source. Air activated. Lasts several hours.

1

GRABBER	heat approx.	durance.	pcs.	Stock N°	Price:
hand warmer	57-70°C	7 h	2	69150	€ 1,60
body warmer adhesive	57-70°C	12 h	1	69155	€ 1,60
toe warmer	38-42°C	6 h	2	69151	€ 1,70
foot warmer	38-42°C	5 h	2	69154	€ 4,60
	size small / medium			69153	€ 4,60
	size medium / large				

The warmer starts the warming action when it is exposed to air. The chemical reaction stops when the ambient temperature is less than 1-2° Celsius and the warmer stays cold. To guarantee the optimal heating it is suggested to open the outer packaging a few minutes before using and leave the warmer at room temperature.

2

2 Gasheater PORTABLE BUDDY

Indoor safe, CE certified for use with Propane gas and Butane gas blended fuels (EN417 thread). Connects directly to disposable propane or butane fuel cylinders. Automatic shutoff system when low oxygen or accidental tip-over. Heats up to 21m². Swivel regulator and single control heat setting. Runs approx. 5,4 hours with one cylinder. Power 1,2-2,4 kW

Klaus Weisskirchen

Blam Mayschke

WEISSKIRCHEN Roe Deer Call Made of Precious Wood*

Roe deer call with one reed. What makes the Weisskirchen roe deer calls so special is the precious wood (wenge) with its high specific density (insensitive to moisture) and the platinum interlaced silicone rings. This makes it possible to imitate all sounds of the female roe deer. The roe deer calls are treated with liquid beeswax.

70872.000 € 39,20

WEISSKIRCHEN Roe Deer Call Made of Precious Wood with Mouse Pipe*

It functions like every call with two reeds. The mouse pipe included in the set will be very helpful at many unexpected situations during the hunt because foxes as well as wild boars react to it.

70873.000 € 51,70

WEISSKIRCHEN Wild Boar Call*

You can also imitate the rutting call of the fallow deer with the help of the Weisskirchen wild boar call. Also the angry growl of the Cape buffalo and, after removing the hose, the call of chamois buck is possible.

71401.000 € 39,20

WEISSKIRCHEN Crow Death Call*

You can imitate the death or distress call of a crow with this call. Also works very well with magpies! If one of them is dying, the others come to the funeral. Made of German cherry wood, that guarantees a perfect sound.

71408.000 € 37,95

WEISSKIRCHEN Stag Call*

The special material mix makes the sound of the Weisskirchen stag call so natural. With this stag call you can imitate all the sounds of the stag, instructions on DVD.

71403.000 € 94,80

*Scan QR-Code
for video tutorial:

WEISSKIRCHEN Hare Distress Call with Mouse Pipe*

With this instrument you can imitate the distress call of a hare very authentically. The technical modifications inside make it possible to produce the natural sound. With a built-in mouse pipe. Also suitable for raccoon dogs. Made of German cherry wood, that guarantees a perfect sound.

71407.000 € 31,-

WEISSKIRCHEN Fox Rut Set*

Fox barking call and fox flute as a set. With detailed instructions.

71402.000 € 39,20

WEISSKIRCHEN Bleep Call for Roe Deer*

Bleep call made of German cherry wood with a very durable female thread. With instructions and lanyard. You can imitate the fawn bleep, barren doe bleep, doe bleep and bothered doe bleep.

70871.000 € 31,-

WEISSKIRCHEN Bird Distress Call*

Triad bird distress call made of German cherry wood. Suitable for all carnivorous predator game and other predators. With lanyard and instruction.

71410.000 € 39,20

WEISSKIRCHEN Crow Call*

Hold the call with your palm, blow slightly, and open and close your palm in turns so you can imitate the short and coarse crow warning sound (for example when the crow sees a fox). Take off the small piece of plastic and the sound becomes sharper.

71406.000 € 28,90

WEISSKIRCHEN Stag Call Made of Ox Horn 40 cm*

Apart from the triton shell, the ox horn was the favourite instrument of the famous stag hunter Count Georg zu Münster. The holder was left off by choice because it would affect the sound.

CLEANING KITS

Tetra® Gun Cleaning Pack

All-in-one kit for keeping firearms working like new. Kit contents:

- Tetra® Gun Lubricant Spray, 3.75 oz. ^{a, b, c*}
- Tetra® Gun Grease, 1 oz.
- Tetra® Gun Copper Solvent, 4 oz. ^{b, c, d**}
- Tetra® Gun Lubricant, 1 oz

72670 € 26,95

* **Warning.** Flammable aerosol. Harmful if swallowed. Causes serious eye irritation. Causes skin irritation. Suspected of causing cancer.

** **Danger.** Causes severe skin burns and eye damage. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. May cause respiratory irritation.

Tetra® Gun Air Rifle Kit

The Tetra Gun Air Rifle kit is a compact case of essentials for air rifle care, including a silicone cloth, a bottle of Tetra Gun Triple Action CLP ^{b, c, e*} and a special Bore Boa cleaning rope made without a bronze brush inside of it.

72526.450 .177/4,5 mm € 15,50

72526.550 .22/5,5 mm € 15,50

* **Danger.** May cause an allergic skin reaction. Fatal if swallowed or if inhaled. Harmful to aquatic life with long lasting effects.

Tetra® Gun Modern Sporting Rifle Kit (MSR Kit)

- Tetra Gun Grease, 10 g
- Tetra Gun Triple Action, 60 ml ^{b, c, e*}
- 19" Sectional Cleaning Rod
- 8" Fixed-handle Chamber Rod
- Double-ended Nylon Brush
- Patch Holder and Cotton Patches
- Bore Guide, 1 Bronze Brush, Cotton Bore Mop

72504.556 € 25,90

* **Danger.** May cause an allergic skin reaction. Fatal if swallowed or if inhaled. Harmful to aquatic life with long lasting effects.

ValuPro™ III Cleaning Kit

A convenient and time saving cleaning kit.

Every ValuPro™ Kit contents: Tetra® Gun Grease (10 g), Tetra® Gun Triple Action™ (2 oz.) ^{b, c, e*}, bronze brush, bore mop, cleaning rod and extension pieces.

- Universal Cleaning Kit
- Handgun/Rifle Cleaning Kits
Available in most popular calibers. Collapsible cleaning rod (rifle kit). Rod blued for rust protection. Reusable storage case
- Shotgun Cleaning Kit
Available in most popular gauges. Quality aluminium, collapsible cleaning rod. Reusable storage case.

CLEANING SOLVENTS

Tetra Gun Action Blaster^{b, c}

Maximum strength firearm cleaner / degreaser. Liquefies and eliminates carbon fouling. Quick evaporating solvent. Extremely economical and efficient. Black powder bore cleaning capability. Maximum cleaning power for all firearms. It is safe for all polymers, plastics, and metals. Blasts away dirt, grit & fouling. Cleans & degreases. No disassembly required. Safe for all synthetic firearm finishes.

72652	500 ml Action Blaster	€ 12,49	(1 l = € 24,98)
72654	300 ml Synthetik Spray ^e	€ 10,95	(1 l = € 36,50)

Danger. Pressurised container: May burst if heated. Harmful if swallowed. Causes serious eye irritation. Causes skin irritation. Action Blaster: Suspected of causing cancer. Synthetik-Safe Spray: Suspected of damaging fertility or the unborn child. Harmful to aquatic life with long lasting effects.

Tetra Gun Triple Action™ CLP^{b, c, e}

Cleans, lubricates and protects: All-in-one cleaner, lubricant and protectant (CLP). Petroleum-based. Value-priced!

72658.060	60 ml	€ 5,95	(100 ml = € 9,92)
72658.240	240 ml pump spray	€ 10,95	(100 ml = € 4,56)

Danger. May cause an allergic skin reaction. Fatal if swallowed or if inhaled. Harmful to aquatic life with long lasting effects.

Tetra Gun Powder Solvent^{c, f}

Strong, thorough Bore Cleaning. Concentrated bore solvent made for use on metal surfaces only. Removes stubborn carbon and powder fouling. Dissolves plastic wadding in barrels. Won't "etch" the barrel. Ammonia-free.

72656.120	120 ml	€ 6,95	(100 ml = € 5,79)
-----------	--------	--------	-------------------

Warning Harmful if swallowed.

Tetra Gun Copper Solvent^{b, c, d}

Quickly removes all contaminants from firearm barrels

Use as the first step in bore conditioning. Fast acting, extra strength formula. Won't "etch" the barrel. Removes: copper, lead, plastic, carbon, dirt.

72657.120	120 ml	€ 8,95	(100 ml = € 7,46)
72657.240	240 ml	€ 14,49	(100 ml = € 6,04)

Danger. Causes severe skin burns and eye damage. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. May cause respiratory irritation.

PERFORMANCE LUBRICANTS AND SPECIALITY PRODUCTS

Tetra Gun Grease

Protect metal-to-metal surfaces with this heavy duty fluoropolymer grease. Widest operating temperature range -100°F to 750°F Bonds to metals; smooths and protects. Reduces friction. Won't migrate. Excellent for use on rifle bolts, sears, locking lugs and semi-auto slide/rails.

72655.030	30 g	€ 7,95	(100 g = € 26,50)
-----------	------	--------	-------------------

Tetra Gun Lubricant

Fluoropolymer penetrating lubricant and bore conditioner. Widest operating temperature range -100°F to 750°F. Migrates to hard-to-reach places. Reduces friction, wear and fouling. Provides rust protection. Bore conditioning for increased velocity.

72650.030	30 ml	€ 5,95	(100 ml = € 19,84)
72650.120	120 ml	€ 10,49	(100 ml = € 8,74)
72650.240	240 ml	€ 15,95	(100 ml = € 6,65)

Tetra Gun Cleaner & Degreaser^e

The latest technology for routine, safe firearms cleaning in a water-based form. Easy-to-use pump spray for hard-to-reach locations. Cleaning & degreasing power, for most light duty jobs. Safe to use, no harsh solvents. Environmentally friendly, mild odour. Won't harm finishes, wood, rubber or plastics/polymers. Just spray, wipe off and you're done!

72660.000	120 ml pump spray	€ 9,29	(100 ml = € 7,74)
-----------	-------------------	--------	-------------------

Warning. Harmful to aquatic life with long lasting effects.

Tetra Gun Lubricating Cloth

Protects against rust. Convenient dry lubrication. Polishes metal surfaces. Removes fingerprints & residue. Long-lasting formula.

72648		€ 5,95	
-------	--	--------	--

Tetra Gun Lubricant Wipes

Lubricating wipes for muzzleloaders and modern guns. Drives out moisture. Provides immediate protection to your valuable and rust. Prone firearms.

72650	box à 50 wipes	€ 7,40	
-------	----------------	--------	--

Tetra Gun Stock Finishing Kit^{a, b, c, e}

A natural, rich walnut finish for any stock. The complete Gun Stock Finishing Kit brings out the natural beauty in wood stocks. Kit Contents: Walnut Stain 3 oz., Gun Stock Finish 3 oz., Service Cloth, Sandpaper (120, 280, & 400 grit)

72505.000		€ 16,95	
-----------	--	---------	--

Danger. Flammable liquid and vapour. May be fatal if swallowed and enters airways.

Tetra Gun Stock Oil

72505.060	60 ml	€ 6,60	(100 ml = € 11,-)
-----------	-------	--------	-------------------

Tetra Gun Liquid Blue^{d, e}

For steel touch-up and complete re-blue. New additive package further enriches colour and reduces achievement time. Excellent for scratches and touch-ups. Easy to use, non-streaky!

72659.000	90 ml	€ 9,29	(100 ml = € 8,84)
-----------	-------	--------	-------------------

Danger. Causes severe skin burns and eye damage. Very toxic to aquatic life with long lasting effects.

Please note numbering of products.

1

1 Universal Oil

For maintaining metal, wood, leather, rubber, synthetic material, even skin and hair. Ballistol protects weapons from corrosion, lubricates, cleans and acts against residues of powder, lead, copper and tombac. It creeps into finest fissures and dissolves old soilings and resins of unsuited oils. It neutralises combustion residues. It also cleans, maintains and preserves the wooden stock and leather gunslings. Neither its use nor its natural decomposition will pollute the environment.

Oil 50 ml	72800.005	(100 ml = € 6,18)	€ 3,09
Oil 500 ml	72800.050	(1 l = € 27,82)	€ 13,91
Oil 5 litre	72800.500	(1 l = € 25,47)	€ 127,35
Spray 50 ml ¹	72801.050	(100 ml = € 7,48)	€ 3,74
Spray 200 ml ¹	72801.200	(100 ml = € 3,74)	€ 7,47
Spray Vario Flex 350 ml ¹	72801.350	(100 ml = € 3,70)	€ 12,95
Spray 400 ml ¹	72801.400	(1 l = € 30,73)	€ 12,29
Pump spray (empty) 650 ml	72802.650		€ 7,07
Applicator 15 ml	72803.000	(100 ml = € 38,47)	€ 5,77

Aerosol packaging: Danger. Extremely flammable aerosol. Pressurised container: May burst if heated.

2

3

2 ROBLA Cold Degreaser

Oil and grease are 100% removed from metallic surfaces, even persistent remainders of grease and resin will disappear without any problems.

Spray 50 ml^{1,2,4} **72905** (100 ml = € 8,54) **€ 4,27**

Spray 200 ml^{1,2,4} **72906** (100 ml = € 2,94) **€ 5,88**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Causes skin irritation. May cause drowsiness or dizziness. Toxic to aquatic life with long lasting effects.

3 GUNEX Gun Oil

The perfect oil for the long-term preservation of bare metallic parts, even in extreme conditions (-50°C up to 100°C). Gunex Gun Oil removes powder and tombac residues, ensures that the complete mechanisms of the arm runs smoothly.

Spray 50 ml¹ **72804.050** (100 ml = € 8,54) **€ 4,27**

Spray 200 ml¹ **72804.200** (100 ml = € 4,17) **€ 8,34**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Toxic to aquatic life with long lasting effects.

4

4 Robla Solo MIL

Barrel cleaner for extreme residue. Robla Solo MIL consists of very special compounds including ammonia. This formula has not only the power to dissolve any residue of copper, tombac and zinc but also lead, the number one enemy to the precision of a gun. Steel, chrome and nickel are not attacked.

Flask 65 ml^{2,3} **72925.065** (100 ml = € 7,98) **€ 5,19**

Danger. Contains ammoniac. Causes severe skin burns and eye damage. May cause respiratory irritation.

5

5 Vaseline Gun Grease

This lubricant for guns is free from resin and acid, is of finest white quality and ideally suitable for lubricating internal and external metal parts, above all of barrels. Lubricates and protects all metal parts as well as locks and mechanisms.

Tin 70 g **72756.070** (100 g = € 10,31) **€ 7,22**

6 Quick Browning

Easy and problem-free browning of weapons and small parts. It guarantees permanent and wear-resistant browning. Does not work on steel containing more than 3% Chromium.

Flask 50 ml^{2,3,4} **72950.000** (100 ml = € 25,66) **€ 12,83**

Danger. Contains selenium oxide and nitric acid. Harmful if swallowed or inhaled. Causes severe skin burns and eye damage.

7

8

9

7 Plastic Cleaner

Powerful cleaner for plastic gun parts, for rifles and handguns, and for gun cases and bags. Thoroughly removes stubborn dirt, grease, soot / gun-shot residue and adhesive residues. Particularly compatible and biodegradable. Suitable for carbon and aluminium surface.

Flask 150 ml **72962.150** (100 ml = € 4,63) **€ 6,95**

8 Cleaner for Gun Parts

For cleaning and degreasing firearm parts. Neutral to all materials, without damaging browning, strong spray beam. With plugged on nylon brush. Ventilates residue-free, acetone-free, pleasant scent.

Spray 250 ml^{1,2,4} **72961.250** (100 ml = € 2,89) **€ 7,22**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Causes skin irritation. May cause drowsiness or dizziness. Toxic to aquatic life with long lasting effects.

9 Silencer cleaner

For silencers/suppressors and sooty gas pressure systems. Dissolves and neutralises combustion residues automatically. Contains surfactants, is gentle on materials, acid-free and odourless. Colour change as dissolving indicator. No need to use other tools.

Flask 500 ml^{2,3} **72930.050** (1 l = € 29,80) **€ 14,90**

Can 5 l^{2,3} **72930.500** (1 l = € 19,80) **€ 99,00**

Danger. Causes serious eye irritation.

Please note numbering of products.

10

10 GunCer Gun Tuning Spray

Special mixture of ceramic additives provide maximum performance and safe shot accuracy. Reduces friction and deterioration of the firearm. Excellent corrosion protection, prevents fretting corrosion. Works in a temperature range from -40°C to +210°C. Ceramic additive even ensures lubrication up to +1000°C. Water resistant & non-resining. Without additions of silicon and PTFE.

Spray 50 ml^{1,2} **72829.050** (100 ml = € 9,32) **€ 4,66**

Spray 200 ml^{1,2} **72829.200** (100 ml = € 7,75) **€ 15,49**

Liquid 65 ml² **72829.065** (100 ml = € 9,45) **€ 6,14**

Attention. Aerosol packaging: Danger. Extremely flammable aerosol. Causes serious eye irritation. Pressurised container: May burst if heated.

11 GunCer Gun Grease

The high-performance special GunCer gun grease offers the highest wearing and corrosion protection for treated components. It is neutral towards plastic, paint, wood and browning. The white, odourless special grease is resin and acid-free and does not contain PTFE or silicone. Emergency running properties are ensured by the ceramic additive. Very good adhesion without sticking or resinifying!

Tube 10 ml **72829.010** (100 ml = € 77,90) **€ 7,79**

16

16 Ballistol Quick-Browning Kit

The whole process continues 10 minutes from preparation until completion. Contains: Universal Oil (Spray 50 ml), Robla Cold Degreaser (Spray 50 ml), KLEVER Quick Browning (50 ml), 2 pairs of nitrile gloves, 2 Goat Hair Brushes and 2 Cleaning Cloths.

Ballistol Quick-Browning Kit^{1,2,3,4} **72952** **€ 20,84**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Contains selenium oxide and nitric acid. Harmful if swallowed or inhaled. Causes severe skin burns and eye damage. Causes skin irritation. May cause drowsiness or dizziness. Harmful to aquatic life with long lasting effects.

12

12 Cleansing Tow Hemp/Silk

For cleaning and polishing the barrel.

Box 75 g **72712** (100 g = € 7,27) **€ 5,45**

Sucolin sub calibre and spherical barrels (white)

Box 75 g **72727** (100 g = € 7,27) **€ 5,45**

13

13 Silicone oil

Ideal for parts made of rubber, plastic and metal. The silicone oil protects and lubricates and by the high surface adhesion, the oil film remains long time without sticking. Silicone gun oil from Ballistol is also used for maintenance of CO2 guns and airsoft guns. Plastics regain their natural appearance and are protected from drying out and embrittlement. The silicone gun oil prevents trouble when reloading, accelerates airsoft bullets, preserves the elasticity of plastic parts and is reliable at low temperatures.

Silicone oil, 65 ml **72805** (100 ml = € 6,25) **€ 4,06**

14 Airsoft-Gas

Airsoft guns are protected thanks to the silicon oil that this product contains and they also stay smooth without being blocked in the event of light frost. The Airsoft-Gas can also be used at low temperatures and is odour-neutral. The containers can be recycled after use without any problem.

Flask 500 ml¹ **72960.500** (1 l = € 21,40) **€ 10,70**

Flask 750 ml¹ **72960.750** (1 l = € 18,55) **€ 13,91**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated.

17

17 BALSIN stock oil

The stock becomes water-repellent and weather-proof again without losing its natural respiratory activity. Simultaneously, Balsin wood care oil regenerates and intensifies the veining of the wood and gives it a darker shade.

Flask 50 ml¹:

Bright **72898.001** (100 ml = € 10,66) **€ 5,33**

Red-Brown **72898.002** (100 ml = € 10,66) **€ 5,33**

Dark brown **72898.003** (100 ml = € 10,66) **€ 5,33**

Dose 500 ml¹:

Bright **72898.501** (1 l = € 53,48) **€ 26,74**

Red-brown **72898.502** (1 l = € 53,48) **€ 26,74**

Dark brown **72898.503** (1 l = € 53,48) **€ 26,74**

Danger. Contains ethanol. Highly flammable liquid and vapour.

14

15

15 Ballistol Gun Care Set

The Ballistol gun care set features everything needed for in-depth maintenance of weapons. With 2 weapon cleaning instruments. Contains: Ballistol Universal Oil (Spray 200 ml), Robla Solo MIL (65 ml), BALSIN Stock Oil bright (50 ml), GunCer Gun Grease (Spray 50 ml), Cold Degreaser (50 ml), Quick-Browning (50 ml), 2 goat hair brushes, a cleaning brush, and 2 fluff-free cleaning cloths.

Box^{1,2,3,4} **72955** **€ 44,90**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Harmful to aquatic life with long lasting effects. Very toxic to aquatic life with long lasting effects. Contains ammonia. Contains ethanol. Contains selenium oxide and nitric acid. Harmful if swallowed or inhaled. Causes severe skin burns and eye damage. Causes serious eye irritation. Causes skin irritation. May cause respiratory irritation. May cause drowsiness or dizziness. Highly flammable liquid and vapour.

18

18 Original Scherell's SCHAFTOL

The leading quality product for gun stock care and preservation is sold in a variety of colours and sizes. Available in 4 shades for any oiled gun stock. Contains a minor quantity of silicone additive and is based on highest quality natural seed oils.

Flask 50 ml with application sponge

Colourless **72892.001** (100 ml = € 15,38) **€ 7,69**

VFG weapon CARE

VFG RIFLE CLEANER - a pure natural product.

All the systems have a common feature in that cleaning, conservation and de-oiling of the barrel are done with wool felt elements. VFG rifle cleaners made of high-quality wool felt are manufactured from natural sheep's wool fibres with viscose.

- Felt is a natural product and does not contain any chemical substances.
- Felt is a textile product and is therefore harmless, gentle and effective for guns.
- As a carrier for polishing agents, it helps in cleaning the metallic surfaces to a bright polish.

COMFORT and INTENSIVE - what is the difference?

We recommend wool felt VFG rifle cleaner COMFORT for mild dirt accumulations or for oiling and de-oiling. VFG rifle cleaner INTENSIVE makes the whole cleaning far easier in case of heavy dirt accumulations or deposits with its additional insert made of brass fibres.

The rifle cleaner INTENSIVE combines the advantages of wool felt with that of bronze brush or steel wool and is therefore every abrasive, elastic and absorbable. It guarantees even more efficient cleaning of the inner sides of the barrel or even cartridge chambers in revolver cylinder. As a result, it frees you from using cleaning brushes, steel wool or similar severely abrasive cleaning tools.

The VFG rifle cleaner INTENSIVE will penetrate deep into the grooves of the rifle due to its optimal bore size, material thickness and elasticity, absorbs dirt particles thanks to its porous surface structure.

VFG MATCH-SET POCKET
The Pocket Size Cleaning Kit for Sporting Firearm. It is quick and simple to operate: push the wire through the barrel, fix the barrel cleaner on the adaptor and pull the wire through the barrel with the help of the grip disc. Repeat this procedure three or four times - and you're done. Oiling and de-oiling works the same way.
Length: 170,5 mm
For cal. 4.5 mm

AKAH Life-Style Backpacks

Buffalo leather with Pull-Up-Effect

Our pull-up leather is deeply impregnated by hand with oils and waxes. Pull up leather is water-resistant due to intense greasing. Pull up leather has the advantage of aging well and looking more interesting as they distress. Pull-up leather develops a distinctive and individual leather patina which results in a "used look". **A product with character for those who admire leather!**

Yak-Leather

Yak Leather is three times tougher than cowhide, yet as smooth as moose leather. It is tanned in Finland by our provider but bought directly from nomadic shepherds in Mongolia. **There are no middlemen to ensure those families the best prices.**

Moose leather

This is the real touch of high quality natural leather! You will find here all the naturally skin-abrasions and small skin inflections on, which are not been over painted. So you can imagine the whole life history of this moose. It is shown on his skin.

Every piece is a masterly achievement of the AKAH leather manufacture.

1 Rucksack bag DOG with YAK-Leather

2 carrying options: as shoulder bag and as rucksack Zip pocket inside, large zip pocket outside made of yak leather.

Outside: 100% felt, waterproof

1 PSS X-TREME PROTECT

Wild boar hunt protection pants

In the development of the new X-treme Protect wild boar hunt protection pants, PSS had the task to create a powerful product for professional searching. Features such as safety, robustness, comfort through freedom of movement and respiratory activity were the main focus.

Elastic stretch materials and athletic cut create real freedom of movement. The simple but elegant design does without many seams and therefore has few points of attack.

Upper: Front: 83% Polyamide, 17% polyester (Vectran).
Back: 90% Polyamide, 10% elastane. Lining: 100% Polyester.
Stab protection: 83% Polyethylene, 10% polyester, 7% elastane (Lycra)

red:

89970 046-064, 024-030* ,94-110* from € 429,-

green:

89958 046-064, 024-030* ,94-110* from € 429,-

THE PROTECTING

Vectran

High cut kidney protection, flexible stretch waistband

Ventilation at the waistband

Side pockets with dirt repellent Cordura cover. Zipper can be opened from the bottom to the top, to prevent accidental opening by itself.

Side pocket from Cordura for smartphone

3M reflectors

Proven "air" ventilation system

100% Cordura reinforcements at the knee

Cordura leg reinforcements, waterproof

Removable gaiters

3

3 PSS RAINTEX® PROTECT impregnating spray

This impregnation is ideal for forestry and outdoor wear as well as for shoes. It makes leather and fabric water- and dirt-repellent without changing the perspiration. Also for Sympatex and Gore-Tex fabrics.

89980 500 ml (1l = € 35,-) € 17,50

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Causes skin irritation. Causes serious eye irritation. May cause drowsiness or dizziness. May be fatal if swallowed and enters airways. Toxic to aquatic life with long lasting effects.

Buttons for suspenders

1

In the front leg area the pants are equipped with a **100% waterproof, steam-open RainTex membrane**. For better protection against wetness, the membrane reaches down to the rear calf area. As a result, the outer fabric can not be absorbed with moisture.

1

Durchstoßprüfung

EN 13567

Safe as never before: we reach up to 900 Newton with the all-round protection in the average.

Certified in Germany for breakthrough resistance.

In following areas:

Front:

- thighs
- knee and shinbone

Back:

- thighs
- knee throat
- calves

The stab protection material **WILD PROTECTION** "Made in Germany" provides also a cooling structure and therefore a lower heat sensation on the skin.

2 PSS SUSPENDERS for buttoning

Robust and elastic, for X-treme Protect trousers. Width: 5 cm.

Fabric: 53% polyester, 36% polyamide, 11% elastane

89968.000 length: 75 cm € 29,-

89968.001 length: 95 cm € 29,-

2

1 PSS X-TREME SHELL Softshell Jacket

3-layer softshell fabric, extremely breathable membrane (water column of 10.000 mm, seams are not sealed) and 3M reflectors. Reinforced elbows and shoulders. High insulation value, zippers under the arms. Windproof, moisture-active inside layer, Smartphone pocket, breast pocket 2-way-zipper

Outer shell: 100% polyester. Reinforcement: 95% nylon, 5% polyester. Lining: 100% polyester

**BUILT TO
PERFORM**

At CARINTHIA, we have been pursuing a common goal every day for decades: the permanent, innovative and performance-oriented further development of insulated clothing and equipment -from professionals for professionals. The highest quality standards apply, because our products are 100% manufactured in Europe.

LODEN HUNTING STAND BLANKET LIGHT

The Loden Blanket Light is a winter-warm, fluffy and soft protection against the cold on the tree stand.

Insulation: G-LOFT® 175 g/m², 100% polyester
Outer fabric: 30% wool, 30% polyacrylic, 32% polyester,
3% polyamide, 5% other fibers
Inner lining: 100% polyamide

87118 150x180 cm, 1.500 g **€ 119,95**

NEW

G-LOFT® SEAT PAT

Practical & comfortable seat pad for on the go, which quickly pays off. Simply roll out and you have a clean and dry seat. Small pack size and light weight.

Insulation: G-LOFT® 350 g/m², 100% polyester
Outer fabric / Inner lining: 100% polyester

87126 40x50 cm, 150 g **€ 25,90**

LODEN HUNTING STAND SUIT STANDARD

The Loden Hunting Stand Suit Standard is your indispensable hunting companion in low temperatures. The sturdy adjustable shoulder straps ensure optimal fit.

Insulation: G-LOFT® 300 g/m², 100% polyester
Outer fabric: 30% wool, 30% polyacrylic, 32% polyester, 3% polyamide, 5% other fibers
Inner lining: 100% polyamide

87119 175x75 cm, 2.000 g **€ 139,95**

LODEN HUNTING STAND SUIT WITH SYNTHETIC FUR

The fluffy and soft lining makes this insulating suit so comfortable and keeps you warm even in extremely low temperatures. And there is no need to take it off entirely when you want to change position: a leather flap at the bottom means it folds to the back or front where it can be secured with a button. Mobility ensured without having to take it off.

Insulation: G-LOFT® 300 g/m², 100% polyester
Outer fabric: 75% wool, 20% polyamide, 5% polyester
Inner lining: 100% polyester

87120.001 size M, 155x75, 2.300 g **€ 199,95**

87120.000 size L, 180x75, 2.600 g **€ 219,95**

87121.000 size XL, 180x85, 3.000 g **€ 249,95**

HUNTING STAND JACKET & FOOTMUFF WITH SYNTHETIC FUR

The 2-in-1 system ensures that it can be worn as a coat and as a body suit. The product is available in three sizes for men and women (female hunters may want to choose the medium size). The entire bottom part can be taken off; it can be folded backward by means of two leather flaps in the area of the hips and secured with a button.

Insulation: G-LOFT® 300 g/m², 100% polyester
Outer fabric: 75% wool, 20% polyamide, 5% polyester
Inner lining: 100% polyester

87122 size M, 165x67, 3.100 g **€ 329,95**

87123 size L, 185x75, 3.900 g **€ 349,95**

87124 size XL, 195x80, 4.200 g **€ 369,95**

G-LOFT® ISLG JACKET + TROUSERS

CARINTHIA®

JACKET

The ISLG Jacket is a perfect jacket for hunters. Made with high quality South Tyrolean loden, it offers a modern look, sophisticated materials and well thought-out details.

Insulation: G-LOFT® 40 g/m², 100% polyester
Outer fabric arms & waist: 3L Softshell GORE®, 100% polyamide
Outer fabric body: 75% wool, 25% polyamide
Inner lining: 100% polyamide

81737 size S (004) - 2 XL (008) **€ 249,-**

G-LOFT® HUNTING SHIRT

The G-LOFT® Hunting Shirt is an innovative functional shirt that can be worn as the perfect mid-layer or as a stand-alone garment. It matches perfectly with all Carinthia hunting jackets and in combination with the jacket keeps you warm when temperatures drop.

Insulation: G-LOFT® 20 g/m², 100% polyester
Outer fabric: Techno Wool
(51% polyester, 35% wool, 14% polyamide)
Inner lining: 100% polyester

81725 size S (004) - 2 XL (008) **€ 189,90**

TROUSERS

The versatile ISLG Trousers match the ISG jacket. Adjustable waistband with practical (zip out) braces for a secure fit. Width-adjustable leg ends with zipper for easy on and off even with boots.

Insulation: G-LOFT® 40 g/m², 100% polyester
Outer fabric: 3L Softshell GORE®, 100% polyamide
Inner lining: 100% polyamide

81738 size S (004) - 2 XL (008) **€ 239,-**

G-LOFT® MILG JACKET

The jacket is not only the perfect garment for the tree stand, but also for any task in the forest, the gamekeeper rounds and work with your gun dog. The outer material is of high quality napped loden. The jacket is completely noiseless and is ideal for stalking hunts and hunting areas, where the wildlife is particularly sensitive to extraneous noises.

Insulation: G-LOFT®, body 125 g/m², arms 80 g/m², 100% polyester
Outer fabric: 75% wool, 25% polyamide
Inner lining: 100% polyamide

81732 size S (004) - 3 XL (009) **€ 349,90**

G-LOFT® TLLG 2.0 JACKET

TLLG is the abbreviation „Technical Light Loden Garment“. Best South Tyrolean Strichloden combined with Thermo-Stretch inserts in the side, arm and shoulder area give this jacket tremendous flexibility, making it a dynamic, low-noise hunting jacket.

In addition to an optimal female cut, the women's model offers an extra addition to the thermal stretch inserts in the torso and back areas, which results in a perfect fit for women.

Insulation: G-LOFT® 30 g/m², 100% polyester
Outer fabric: 75% virgin wool, 25% polyamide
Inner lining: 100% polyester

81729 oliv size S (004) - 2 XL (008) **€ 259,90**
81733 grey size S (004) - 2 XL (008) **€ 259,90**
81734 lady olive size S (004) - 3 XL (009) **€ 259,90**

G-LOFT® ILG JACKET

ILG stands for "Insulated Loden Garment". This garment is a versatile all-year-round jacket. Worn alone or underneath an additional layer, the G-LOFT® ILG is thoroughgoing.

Insulation: G-LOFT® 40 g/m², 100% polyester
Outer fabric: 75 % virgin wool, 25 % polyamide, napped loden
Inner lining: 100% polyamide

81731 size S (004) - 3 XL (009) **€ 279,90**

**NEW****G-LOFT® LODEN PARKA LADY**

The cut of the parka was constructed according to the female anatomy and offers maximum comfort. Elastic waist regulation and pre-shaped sleeves ensure a good fit. The interaction of the traditional upper material made of first-class water-repellent loden and effective G-LOFT® lining ensures the perfect look and the right performance.

Insulation: G-LOFT®, body 145 g/m²,
arms 110 g/m², 100% polyester
Outer lining: 75% wool, 20% polyamide, 5% polyester
Inner lining: 100% polyamide

**81721** XS (003) - 3 XL (009) **€ 399,95****G-LOFT® LODEN PARKA**

The G-LOFT® Loden Parka is your perfect winter companion. Its rugged design combined with the outstanding thermal capacity ensures optimum protection against the cold.

Insulation: G-LOFT®, body 145 g/m²,
arms 110 g/m², 100% polyester
Outer lining: 75% wool, 20% polyamide, 5% polyester
Inner lining: 100% polyamide

81720 size S (004) - 2 XL (008) **€ 399,95****G-LOFT® LODEN TROUSERS**

The perfect match for the parka is the G-LOFT® Loden Trousers. The covered zip on the side make it very easy to put them on.

Insulation: G-LOFT® 40 g/m²,
zip-in trousers 80 g/m², 100% polyester
Outer fabric: 75% virgin wool, 25% polyamide, nap. loden
Inner lining: 100% polyamide

82720 size S (004) - 2 XL (008) **€ 289,95****G-LOFT® ULTRA

Lahoux Optics

Lahoux *DigiClip*

Digital nightvision attachment

- The **Lahoux DigiClips** are among the smallest and lightest digital nightvision attachments in the world.
- When used at night at long ranges, the Sony sensor provides a high-contrast, stable and clear image, which is shown on a 1280×960 HD display.
- The units are rugged, bulletproof, accurate and repeatable.
- The **Lahoux DigiClip**, a budget-friendly solution.
- The **Lahoux DigiClip Pro**, for users who want an even better image and more distance at night.
